NEWS:

Welcome into the Y2K with SRSnews!

RADIO MILLIWATTI from Finland was on air on Christmas Day! Was quite weak in the beginning, but about 11.15 UTC, the signal strength was an impressive S8! It's not many Finns around these days, and when they do appear, they usually use little power which makes them difficult to hear in the south part of Sweden (and obviously for the rest of Europe, too). But there are now two new Finnish free radio stations in the 48 metre band. In the mid 1990's almost all Finnish pirates were raided because they used a common P.O.Box in Jyvaskyla, Central Finland. Now there is action again.

RADIO ORANG UTAN will return in the near future according to Radio Torenvalk in the show he hosted for Transatlantic Radio on Christmas Day.

THE SANTA CLAUS OVERDRIVE made it again on Christmas Day - this year WITH Jenny McCarthy in the studio who politely gave Santa a blowjob as her special Christmas gift. After a while Jenny was fed up though, and left the studio. Santa ended up in tears, but hoped to bring Jenny back until next year. In the beginning of the show, the following e-mail address was given: Santa_Jenny_2000@hotmail.com

RADIO WAVES INTERNATIONAL wrote in: just a quick mail to tell you that the unid station last week on 11401 khz was R.W.I playing a US radio show from WOODSONGS called **OLD TIME RADIO HOUR**. So no Finnish station!

Radio Laguna struggles with both 48 mb and the Internet. This address should be the easiest way to reach him on the net: listen.to/laguna48.

UK RADIO is back on air! A listener in the Netherland received UK Radio on 6273,5 kHz, if the old address of P.O.Box 53, Bilston, WV14 6YS, Wolverhampton, West Midlands, UK could be used is not sure at the moment.

PLANET RADIO is a new station from the Netherlands. Using only 14 Watts! The address is P.O.BOX 1104 (c/o BlueStar) 8001 BC ZWOLLE, the Netherlands. E-mail: planet@home.nl

Radio East Side is the name of a new project with former Radio Communication DJ Alex Warner and DJ Tommy. Together will they be heard via IRRS once or twice a month with a mix of music from the 80s and 90s. Address via FRI, Dortmund in Germany.

RFL let us know that the 15060 transmitter is now back on the air, hopefully 24 hours/7 days etc.

Correction for last weeks edition: the address for **Radio Likedeeler** is Postbus 5, 8100 AA Raalte, The Netherlands.

A one-day-station was **Radio Millenium 2000**, obviously an operation of Dr. Tim. A special QSL-card can be obtained via Free Radio Info, Postfach 52 01 12, 44207 Dortmund, Germany.

The **BBMS/Ozone** computer will be out of commission for a few days as from Thursday 6th January as they are moving QTH, so all messages sent will be picked up as soon as possible and will be replied to.

A note from Q 103: The VOIS (= Voice of Independent Sahara) programmes on 7485U were only re-broadcasted by Q 103. The station has no official postal address, so all the reports should have to be sent through Q 103 address (Ytterby), please ! Just put any report in the same envelope, we will take care about the delivery to VOIS, but I can now inform you in advance that it will take a while to get a different reply from VOIS due to the difficult postal circumstances etc... But the signals sent through Q 103, so its important for us about the reports.

Some logs from the USA:

6261.05, Unid., 0710-0800, Mostly dance music with at least one power Rock ballad Weak signal of course with quick fading and UTE and SSB QRM. (9 Jan.)

15060.1, RFL, 1240-1310, Talk by man DJ, into "Magic Man" by Heart. Weak signal and weakened badly. Barely anything there by 1322. (8 Jan.)

And some from South America:

14564.8 kHz LSB Emisora Z del Dragon (Via Radio Blandengue), 2100 - 2130, Jan 09, Spanish and English ID, Italian Music and International Music ID "En algunos momentos mas comenzara nuestro show musical" "Esta es Emisora Z del Dragon" "You are listen Emisora Z del Dragon", Good

14564.8 kHz LSB Radio Blandengue, South America, 2130 - 2200, Jan 09, ID in Spanish, English and Italian "Hola mis amigos del mundo... soy Raul Gonzalez el operador de Radio Blandengue, nuestro programa de hoy comienza con la musica de las Americas" and then Andean Music, Good

14564.8 kHz LSB Radio Sin Fronteras (via Radio Blandengue), 2200 - 2247, Jan 09, Spanish, Musical Program "Hola que tal mi nombre es Billy y esta es Radio Sin Fronteras....desde America del Sur con las Spice Girls", Good

6950 kHz USB Emisora Z del Dragon (Via Radio Blandengue), 0000 - 0030, Jan 10, Spanish and English ID, Italian Music and International Music ID "Ud. esta sintonizando Emisora Z del Dragon, Ud esta escuchando Emisora Z del Dragon", Good

6950 kHz USB Radio Blandengue, South America, 0030 - 0100, Jan 10, ID in Spanish, English and Italian "En Radio Blandengue Ud. esta escuchando a Elvis Crespo y Pintame", Good

6950 kHz USB Radio Sin Fronteras (via Radio Blandengue), 0100 - 0147, Jan 10, Spanish, Musical Program "Musica hacia todos los Rincones... Radio Sin Fronteras...", Good

NEWS:

Poor cx here at SRS-HQ. Bluestar with relays only S4 today. A normal Sunday he is at least S9+.

We repeat the address to Radio East Side, P.O. Box 520112, D-44207 Dortmund, Germany

RADIO BENELUX will present in the coming transmission EAST SIDE RADIO from Germany in the BNL Free Radio Spot. Listen out.

POWER RADIO made it's initial transmission (most likely) this sunday with Scottish music and many IDs. Unfortunately the voice modulation was VERY bad, nearly unintelligible! They announced the SRS address for reports.

There is a new station from UK, and the name is RADIO COAX INTERNATIONAL. They will be operating on 48mb. Address via SRS.

RADIO MORNINGSTAR announced a NEW mailing address: Postbus 19, 7396 ZG Ter Wolde, Holland. E-mail via Radio.Morningstar@usa.net, a homepage was given too and can be found on SRS Link-page.

Radio Geronimo has a new address: 64 Brighton Road, Leicester LE5 0HA, UK. Letters should now reach their destination faster. The address in Herten was only used provisionally, but may be still in operation.

Radio Nova (Beilen) can also be contacted by E-mail to nova@mailme.nl

The "Free Radio From The Netherlands" is a new name for an already well known station: Radio Delta

RADIO KORAK INT. closes down! This information reached us today Monday. Op W has not given any reason for this more or less surprise. Being elected to the No 1 pirate 1999 was perhaps too much? We hope of course that Korak will return again.

What the HELL is going on here? First we received this message:

RADIO GALAXY TEST TRANSMISSION ON XMAS 1999

Radio Galaxy likes to point out that the transmission aired on xmas was NO FAKE, but the first transmission after years from our side. It is a pity that we got jammed by an unknown station, probably from Germany. We are still testing our equipment so regular transmission might take place later this year. For reception reports to our test transmission can be used our e-mail address: radiogalaxy@usa.net Please help us to find our way back on SW, support Radio Galaxy, the attack on your receiver, by sending us your reports for our first test transmission. All the best from Radio Galaxy

But as we have heard from other sources that this project was close to impossible, I let some friends take a look on this press release and got this message in return:

This is an official statement of RADIO GALAXY - 6225k:cs from Germany, former known as "the ultimate attack on your receiver": The transmission aired on december 26th(?) in the 48 metre band on aprox. 6213k was NO transmission from the original Radio Galaxy. Nobody of the original crew (Harry Hertz, Conny Ferrin, Johnnie Best, Paul Huber or Danny Kay) is involved in anyway with this project. Also we did not legalize or licensed the use of our original Radio Galaxy jingles, which were used in that broadcast! I also can tell you, that the former RADIO GALAXY actually has NO postal or eMail address at this very moment. / Danny Kay

And finally, my friend at Wuppertal added this short and easy message:

The staff of the Wuppertal dropbox likes to point out that any mail sent to Radio Galaxy will be opened and the content will be used to find out who is behind the fake Galaxy. So do not waste your money in return postage! We do not agree with this attitude abusing our mailbox and names of "our" stations. We will do everything necessary to help the former Radio Galaxy staff clearing up this mess put up by some narrow minded idiots even not being able to find an own name for their station. With kind regards and keep on FFFR / KWWF-DROPBOX, WUPPERTAL

So my personal opinion is that everyone stay low until we have found out what is going on here.

PIRATES SOUTH AMERICA:**Saturday 15, 2000**

6950L Radio Cochiguaz, s/on at 2327 w/INT-SIG and andean folk mx, at 2352, the Condor Pasa music w/flutes, SIO: 353, also heard in US from 2334-0203,*0253-0330+, Nonstop CP-style flute only (possibly percussion too) mx, "El Condor Pasa". There was some SSB and even CW QRM at times. Happy to get such a readable signal!!

Sunday 16, 2000

6950L Radio Dr Tim (via R.Cochiguaz), 0000+ with a very nice reggae music pgm and Letterbox pgm IDs as "Estacion de la pirata Radio Dr Tim. Same pgm hrd at 0610+, SIO: 353

6950L Radio Natalie (via R.Cochiguaz), 0101+, ID's as "Radio Natalie, free radio from Estonia", addr., IDs in SP, EG & Estonio, pop mx from Estonia, SIO: 353

6950U Radio Blandengue, 2247+, characteristical music from this stn, SIO: 333

6950L Radio Dr Tim, 2340, comments about letter rcvd from Chile, then reggae music, SIO: 343

6950LSB Radio Perfekt, Germany, (Via RC), 0309 - 0345, English ,Man announcer, mx px, ID "its free Radio, from Germany, its Radio Perfekt", 24432.

6950LSB Radio Dr. Tim, Germany, (Via RC), 0420 - 0500, English/Spanish, Man announcer, musical program, letterbox ID "Estacion de la Pirata, Dr. Tim", mention letter from listeners, 24442.

Monday 17, 2000

6950L Radio Cochiguaz, 0000+ pgm with andean folk music, ID at 0030 as "Esta es Radio Cochiguaz", SIO: 454.

NEWS:

JRRI is still running 50 watts on 6235kHz.

Radio Ozone International, Good Music Radio and Britain's Better Music Station are opening up the old mailing address which is 40 Dalehead, London NW1 2JL, England - as some mail from listeners to Good Music Radio is being returned - this should simplify this problem.

The Dutch Radio Titanic announced that the station might be back again next weekend.

The US station "VOICE OF CAPTAIN RON SHORTWAVE" was heard in Germany with an excellent USB signal around midnight UTC. DJ and OP Captain Ron announced an E-mail address being CaptainRonSWR@yahoo.com. Only E-mails or logs in the FREE RADIO WEEKLY can be verified for 100 % correct reports. No Fake reports!

Radio Joystick ask us to repeat that the only valid address for this station are P.O.Box 100812, D-45408 Muelheim in Germnay. E-mail: chapri@gmx.de

6950L Radio Cochiguaz, Jan 23, s/on at 2258 with "El Condor Pasa" with flutes version, good.

6950L Radio Natalie (via Cochiguaz), Jan 23, at 2300-0000, including lot of IDs as "Radio Natalie, free radio from Estonia", with pop music, good.

.....

NEWS:

We might have Martin back soon as co-editor of the SRSnews, just keep your eyes open for more information. Not even QRM heard at SRS-HQ this weekend. Strong aurora blasting all shortwave activity away on Saturday evening.

"RDI - Radio Devalon International - your rock'n'roll and early 60's music-free radiostation on sw" is the name of an 1h english-language test-px. Its scheduled to be aired on either the 1., 2. or 3. sunday of february 2000 (feb. 6/13/20) somewhere in the 48 m band (6270-6305 ?) starting at around 1000 utc. Listeners reactions to this test-px are very much appreciated and rr's will be verified with a letter of verification, stationsticker and station-info 'as quickly as possible' when you comply with the following conditions: reporting/listening-time at least 15 min (described as detailed as possible) plus an already addressed envelope plus 1US\$/1IRC (from outside GER) or 2x1,10DM (from inside GER, no \$/IRC). Contact R.Devalon via the FRI-box in Dortmund.

Seems like there are more pirates born through Europe. This message reached us just a few days ago: The #1 pirat radiostation in Bucharest (Romania), visit us on <http://www.radioalfa.go.ro>

Radio Korak was back on air this weekend. But with some technical problems. We have heard that Korak will stay on the bands but not as often as before.

From South-America we got a report that the station Emisora Z del Dragon had been heard in Australia! Nice one!

PIRATES SOUTH AMERICA

January 29th 2000 (Saturday)

6950L Radio Cochiguaz, 2329+, INT-SIG & IDs, then Andean folk mx, ID as "This is Radio Cochiguaz, free radio from South America", at 2340 ID in Quechua, good.

January 30th 2000 (Sunday)

6950L Jolly Roger Radio Int.(via RC), 0026, ads for 'Pirate Conection' bulletin from Sweden, Irish music, poor.

6950L Radio Torenvalk (via RC), 0147, Jan 30, IDs as "Radio Tooorenvalk", mx. good.

15564.99L Emisora Z del Dragon (via RB), 0018+, addr in Chile, then Eros Ramazzoti mx, good.

15564.99L Radio Blandengue, 0038+ ID "En Radio Blandengue continuamos escuchando a Gloria Stefan from Cuba", mx, at 0058 addr in Canada, good.

NEWS:

Now we have Martin back as co-editor of the SRSnews, 'his' issue is the last of each month and as you perhaps note, this issue was already done by him.

Dear contributors, please do NOT GUESS when making your loggings, in this issue we have RFL and Sub. Sounds as well as Korak and Borderhunter as well as AL Int and VotN at the same time logged on the same frequency ! That can't be real. Someone must have been wrong !

Propagation trend in Germany : No longer negative. Forget the last bad weekend.

JRRI are still running 50 watts and hope to have the 130 watt rig back in operation by Mid-March.
Check out JRRI at <http://listen.to/jrri/>

LASER Radio from Berlin was very weak here in the centre of Berlin, so no groundwave received here at my side??? Or was the signal coming from outside of Berlin?

On January 26th, UK RADIO announced its px as first Px since raid last November. Hits from 1999. Still the same mail address:- PO Box 53, Bilston, Wolverhampton WV 14 6YS. No e.mail at present.

Log from NSW in Australia via HCDX : Radio Free London on now (Jan 30) at 0845 UTC, weak on 15060.24 but it is possible to make out what is being said and the songs.

It looks like Radio Crystal is starting the transmissions in February this year. During a surf tour on the WWW i found some interesting info on the next URL; <http://listen.to/CrystalRadio>

WWW.Free-Radio.de made a great update its homepage this weekend. You can find them at www.free-radio.de with pages in German, English, Dutch, French, Italian and Spanish. The Farmers from Holland have an own domain at www.farmersradio.de.

Antaris Radio made it's 2nd transmission this Sunday. They have already their 3rd E-mail-address, which is: antaris@free-radio.de. Their new web site is: <http://www.free-radio.de/antaris>

Listened by chance: Free Radio news on RADIO KOREA INT (german mailbox px). Logs and addresses of SWRS, R East Side Int, R Blue Star and other, forwarded by German OM Winter. (000129 - 20.50 UTC on 3980 kHz).

NEWS:

RADIO 101's 27 MHz outlet remains off the air due to technical trouble. A comeback on 27035 kHz is planned for May 2000. Whenever the sporadic E layer occurs, 101 might be audible on that channel throughout Central and Western Europe.

RADIO MORNING STAR is going to put out some tests in the evening hours after 22.00 UTC for 45 minutes, Monday to Fridays on 6275 kHz. Power will be 100 watts fed into a quarter wave vertical aerial. The same frequency should be used for Sunday morning country music programmes.

RADIO PANDORA tells SRSnews that he changes to transmit only once every month due to lack of respons. While on air you can allways call Pandora on 00447931-489366. Pandora is also giving out a CD of free choice to the one that can design the best 5th birthday QSL for him. Address via Ytterby. Radio Pandora has no "real" e-mail address. Letters to the srs.pp.se are printed out, so do not expect rapid answers via e-mail!

PASSION RADIO struggled with technical problems and distorted mod on their February 6th marathon broadcast. New email address is PassionRadio@gmx.de. Snailmail to Postbus 386, 5900 AJ Venlo, Netherlands. 32 emails and 31 phone calls were received during the broadcast on 6293 kHz.

Last weekend the station "Jan Duin", also on shortwave 3939 kHz at Fridayevening, was raided during a FM-transmission on 95.9 mHz at Friday-evening. The latest information coming soon on http://www.free-radio.de/jan_duin

The "Farmers from Holland" now with new domain at <http://www.farmersradio.de> comming back on shortwave very soon, probably in April.

Radio Benelux tested on 11420 khz this Sunday.

I'm searching Jingles, especially from Free-Radio-Stations. I will put it in RealAudio-Quality on the Jingles-page at <http://www.Free-Radio.de> . Maybe if you have some, or you are an owner of a Radio-Station, please contact me at info@free-radio.de .

Seems like EMR had their final final transmission this weekend. The mainoperator has been unhappy with the response. "Not as in the good old days", he tells SRSnews.

And finally from the editor:

Seems like a pretty good weekend! Heard only Passion, Eastside and Blue Star at my place. Still fighting against heavy propagations and crazy neighbours.

Sad to hear about the EMR broadcast. Lack of response? Are we just QSL-hunters or do we not care? For some stations, SRSnews gives the operators an indication of reception through out Europe, but Your report will help them MUCH more!

Euro-pirates heard in the US.

PIRATE (Euro) 5788.5, R Ozone Int'l, 0805-0823* on Feb 6, continuous rock vocals until man w/ ID and annmts mentioning "smash hits" at 0820. He mentioned station was leaving the air for 5 seconds but I didn't hear them return. Poor and beginning to fade. (D'Angelo/FCDX-PA)

5805, R. Free London, 0114-0136 on Feb 6, man annr hosting rock mx px w/ freq IDs, jingle IDs and usual DJ chatter. Poor w/ some fair peaks. (D'Angelo/FCDX-PA)

6241.3, R ? Int'l, 0824-0847 fade out on Feb 6, apparent multi-lang. as E and at least one other language noted (G?). Rock mx format w/ man annr giving annmts, ID, jingles noted. Fair at tune in w/ sporadic UTE QRM but rapidly fading. Wish I was there earlier. R Eastside Int'l? Address? (D'Angelo/FCDX-PA)

6290, Alfa Lima Int'l, 0040-0111 on Feb 6, man annr w/ IDs ("You are listening to Alfa Lima. Your free radio station from The Netherlands.") playing dance mx. Gave usual address for repts: P. O. Box 663, 7900-AR Hoozeveen, The Netherlands. Poor to fair signal. (D'Angelo/FCDX-PA)

15060.1, R Free London, 2006-2038 on Feb 4, frequent IDs and freq annmts, Beatles, Electric Light Orchestra mx and greetings to John T. Arthur. Weak signal but clear until fade out. (D'Angelo/FCDX-PA)

6240, Alfa Lima Int., 0701, Talk over dance music w/ID and addr. Quite weak and the only Euro-pirate noted this morning. Conditions were highly disturbed: Solar Flux = 163, A Index = 53, K Index = 3, Severe storm level. (Valko 13 Feb.)

South-America

14565.08L, R. Blandengue, 0055-0145, Heard R. Blandengue programming prior to start of relays. Did indeed here all relays at the scheduled times: 0000-0030 Emisora Z del Dragon, 0030-0100 Radio Blandengue (own pgm), and 0100-0145 FLARS. Excellent signal and clear, but maybe a tad overmodulated and slightly above 14565. It was in earlier at 2105, but extremely weak and basically unusable. Thanks!!! (Valko 13 Feb.)

NEWS:

During the Saturday evening programme RADIO BLUE STAR mentioned that RADIO CONTINENTAL would come on the air on 7484 kHz after Blue Star's s/off which was a few minutes before 19 UTC. However, using that 41 metre channel was useless due to Radio Norway International's 500 kilowatt signal on 7485 kHz.

RADIO GALACTICA announced an official mailing address of Postfach 520112, 44207 Dortmund, Germany. DJ Perry Rhodan played Caribbean music on the second test transmission Saturday February 12th on 6206 kHz.

Sunday's broadcasts on 6206 kHz emanated from the GERMAN PIRATE RADIO NETWORK which is a joint venture of RADIO GALACTICA, STAR CLUB RADIO, RADIO ILLUSION, RADIO PIPELINE and RADIO METROPOLIS. An email address was given for Metropolis: derschotte@t-online.de. All snailmail correspondence to Postfach 520112, 44207 Dortmund, Germany.

Some information from RADIO GERONIMO:

The new address for this station is: Radio Geronimo, 64, Brighton Road, Leicester, LE5 0HA, UK. RG is also looking for a co-DJ. A good english and perhaps some other languages are a must. RG is also looking for recordings from the old Radio Geronimo from back 69/70 via Radio Montecarlo on 1500 kHz, also if possible some actual good quality recordings of the stations jingles. If so, please contact Chris Watson at Geronimo SW at the above address.

R Blandengue reports that the station has been heard on several places in the USA and Canada.

R Eastside announced another 24h px on 6240 kHz for the next weekend. The start will be on the afternoon of Sat., the 19th of Feb. And the end will be on late sunday evening.

Logs from the USA

6199.86, Ozon R. Int., 0805-0830, Feb 02, Usual M annr tlc over mx w/ment of "on this meterband", and what seemed like current pirate nx. Went into a mx pgm a little later. Weak/444. (Valko; Yoder,PA)

6218.92 & 7414.84, Laser Hot Hits, Feb 02, 0752-0822, Apparently this str w/Pop mx and what sounded like the usual M annr hosting. Mentioned "kilohertz" and gave song anmnt. Weak. (Valko; Yoder,PA)

6245.4, R. Eastside Int'l., 0342-0730 Feb 20, Playing a variety of pop music: Abba, Simon & Garfunkle, INXS. Announcements in English & German, tough to copy as speech was highly processed, almost sounding synthesized. Gave ID and maildrop at 0350. Maildrop: PO Box 520112, 44207 Dortmund, Germany. 33333 (Maroti-NY; Yoder,PA; Valko)

6247.52, unid, 2/20, 0825-0840+ Signal mixed in with bad hets & othersignals from Radio Eastside Int'l and a UTE. Some music audio seemed to be present, but I'm not sure what it was. (Yoder,PA)

6275.05, unid, 2/20, 0846-0900+ Techno & hip hop music. Pretty weak and ripped by QRM. Didn't hear any anns or IDs. (Yoder,PA)

6284.32, Radio East Coast Holland, 2/20, 0714-0807+ Audio went off mid song around 0715, then came back--first weak, then audio level returned strong. Mostly pop. IDs & some chat. Mentioned that "conditions are very good here." Hooegeveen address announced. Gd-VG signal. (Yoder,PA; Valko)

6290.1, Alpha Lima Int'l, 0306-0716 on Feb 20, man annr w/freq IDs and usual Hooegeveen, The Netherlands addr between songs. Fair signal w/ some fading. (D'Angelo-PA; Valko; Maroti-NY; Yoder,PA)

14565L, Radio Blandegue, 2/20, 0104-0136+ Very weak, but clear. Latin American music with an SP OM DJ. (Yoder,PA)

15060, Radio Free London, 2/19-20, 1156-0244+ Tuned in from time to time. Heard plenty of album rock by Rolling Stones, Supertramp, Led Zeppelin, Queen, Deep Purple, Robert Palmer, ELO, Manfred Mann, etc. UK-accented OM DJs often announced their Webpage & e-mail addresses. Announced as the "World Service" of Radio Free London. SIO often 444. With that signal, it seems like they do have a WS! (Yoder,PA)

PIRATES SOUTH AMERICA

February 19th 2000 (Saturday)

14565L Emisora Z del Dragon (via RB), 0715 ID as "This is Emisora Z del Dragon" at 0722 addr in CHL. SIO: 353.

14565L Radio Sin Fronteras (via RB), 0730 announcing name & ID as "Esta es Radio Sin Fronteras". SIO: 353.

6950L Radio Cochiguaz, s/on with El Condor Pasa instrumental version at 2326, then lots of Andean music, ID as "This is Radio Cochiguaz, free radio from South America" & also ID in Quechua language at 2346. SIO: 343.

February 20th 2000 (Sunday)

6950L Radio East Side International (via RC), 0007 ID as "This is Radio East Side Int., the Voice of Eastern Germany today from somewhere in South America" then music 'Paradise City', very good audio quality & songs, Dortmund addr. SIO: 444. Hrd also at 0222 ID as "....East Side pirate radio today directly from South America....". SIO: 353.

14565L Emisora Z del Dragon (via RB), 0014+, music & IDs as "This is Emisora Z del Dragon". SIO: 343.

14565L Radio Blandengue, 0032+ ID as "Hola amigos del mundo, soy Raul Gonzalez, el operador de Radio Blandengue". SIO: 343.

6950L Jolly Roger Radio Int. (via RC) 0143 ID "Estan ustedes en sintonia con Jolly Roger Radio Internacional, llegando a sus receptores desde al lugar de Sudamerica...." then addr in waterford, Ireland. SIO: 433.

6950L Radio Torenvalk (via RC), 0300+ ID jingles & music from Krasverk? group & Montage. Addr in Zeddarn. SIO: 333.

NEWS:

Bad surprise for Passion Radio. Because the annual fee was not paid in time the Venlo post office cancelled the contract, so all the listeners letters for the February broadcast were returned to sender. The crew found out just when their maildrop operator wanted to collect the letters and returned with empty hands. The Postbus 386 mailing address has closed down for good now. Apart from Passion, it had been used by PFBS, Radio Vanessa and Fox AM. Passion Radio has changed now to the SRS maildrop at Ytterby and asks their listeners to send their reports a second time. To compensate for that inconvenience, it is NOT necessary to enclose return postage this time!

JRRI are still running at 50 watts, but should be back with 130 watts in 3-4 weeks time. <http://listen.to/jrri/>

Dont forget to check out the **Magic Spell** web site. You can vote on several matters, look at photos from Europe's pirate stations, read the latest shortwave listings and much more...<http://www.magicspell.free-online.co.uk>

The official and brandnew e-mail of **Radio Tonair**: radiotonair@hotmail.com

We inform through this 'official' message, that our NEW web site, that currently is been modified, is: <http://members.xoom.com/rcochiguaz/> also, other way is: <http://listen.to/cochiguaz>, Please, delete the other old web site address.

26 metres seem to revive. Both **Crazy Wave Radio** and Radio Benelux successfully used that band this weekend. Radio Waves International continues to broadcast on 11401 kHz from time to time. The operator of Radio East Coast Holland mentioned that he would also consider 11485 kHz for future transmissions.

Ozone has tested around 3941.35 last night so look out for them on this frequency.

WMR has been the only pirate from Scotland but not for long. Jock Wilson is returning to the country and will be starting up R.Stella Int. again. Pipeline is also to be relayed via this frequency.

Logs from the USA

Thanks to the SRSlist at Onelist, I was able to ID the following:

PIRATE (Euro). 6239.7v, Radio Nova International, 0138-0226 +0644-0730 Feb 27, This freq was plagued by ARO QRM on LSB, plus xmtr was drifting. Played 60's pop music exclusively; I recognized songs by Melanie, Mongo Jerry, The Kinks and The Small Faces. Echo effects during the OM DJ's talk made for difficult copy. Was able to copy a jingle ID and conventional ID thanks to tips from Jerry Berg and Dave Howship. 22332 (Maroti-NY; Valko 27 Feb.)

6294.68, R. East Side Int., 0722-0755, Pop and Dance mx w/M anncr in GM w/long tlk segments. Different M also briefly sev. times. Some laughing. Finally in EG at 0752 w/ID and phone # "...in Germany". Canned ID then, back to M, and more mx. Decent signal. Slowly drifted up from 6294.68 to 6294.80. (Valko 27 Feb.)

5794.0, Ozone Int., 0756-0820, Punk and Rock mx, M anncr. Good morning ID, freq given, tlk abt Westside R., ID at 0813, said "started on Saturday" and "Big Brother is watching me", and "can't even go to the toilet!!" Song anmnts too. Nice and quite readable. One of the regulars on this side. (Valko 27 Feb.)

6218.93, Laser Hot Hits, 0822-0900, Pop mx, canned ID w/Laser SFX. Live M mentioned what sounded like a phone #, and gave promo for upcoming mailbag pgm. Sev. canned ads of some sort. ID w/SFX again, more mx. Still barely audible under voice traffic QRM at 0900. Really nasty SSB QRM earlier at 0830. (Valko 27 Feb.)

6305.2, A very very weak het here at 0810. A station?? (Valko 27 Feb.)

PIRATES SOUTH AMERICA

9025.6U, R. Bosques, Villa Dominico, Argentina, is testing here from Feb 22, all days, *0000 hours, apparently replacing 6215.5. Argentine mx hrd on the fqy Feb 23. (GIB-ARG/NU 1566A)

NEWS:

A lot of NOVA-confusion : listeners say, Nova used old tapes etc from the old Irish Nova, NOVA from Beilen said, they used our jingles etc, but it wasn't us ! RFL say, that was certainly an ex-mate of RFL ...

>From the listeners : Radio NOVA appeared both Saturday and Sunday (Feb 26/27) on 6240 kHz playing nonstop oldies and jingles pinched from the Dublin pirate of the 1980s. No address mentioned.

>From Radio NOVA-Beilen : NOVA-name abuse : Quite surprising to hear Radio NOVA last Sunday (Feb. 27th) on 48 mtr, with exactly the same jingle-package as we use... It wasn't us!! But we want to know who it was, we put a lot of effort and money in it (jingles, QSL-cards etc) and we're very curious, perhaps you know who it was or you heard an email address, PO Box or phone number...Please let us know! Thanks in advanced from "Your Host on the Dutch Coast" Radio NOVA, P.O. Box 128, NL-9410 AC BEILEN, HOLLAND

The German Pirate Station PASSION Radio had/has problems with the Venlo-address (P.O.Box 386) in the Netherlands. The owner hasn't paid the fee for that P.O.Box, so Passion Radio is now reachable via the address in Sweden :

Passion, c/o SRS, Östra Porten 29, 442 54 Ytterby, Sweden. This station send out a second newsletter this days. For all details visit the unofficial homepage at <http://www.Free-Radio.de/Passion>

Radio CONTINENTAL has left its Postbus 1353 in Zwolle. Mail was returned saying the addressee has moved. Meanwhile, the station announced the Radio Blue Star P.O.Box for letters, so Postbus 1104, 8001 BC Zwolle, Netherlands should get to them.

FRSH started an internet txm on Sunday, the 27th of Feb. 09:00 and wanted to loop until Sunday nite late. See <http://www.ldbrewer.com/> owned by LD Brewer.

A very uninteresting weekend showing once more that the some OPs are too stupid to check the QRG before switching on. German LASER jammed LAGUNA on 76 also signal must have been audible at his side.

EAST SIDE seems to be relayed over Blue Star again, why are they not using their own tx???

OP Fede González informs us, that Emisora Z del DRAGON has an e-mail address: emisoraz@yahoo.es.

OP Juha and his crew inform us, that due to some stupid circumstances the internet-provider of Q 103 changed their homepage address, which can be now founded under : <http://members.xoom.com/Q103.1/index.htm>.

Also Radio Doctor TIM and his News-Page are reachable via a new Domain soon. Visit in a few days <http://www.doctortim.de> and <http://news.doctortim.de> for the weekly News from the PIRATE DOCTOR.

FREE RADIO INFO is looking for the best QSL in 1999. Send your votes to the Email-address of FREE RADIO INFO (enclosed with the QSL as JPG) or via snailmail with a hardcopy to P.O. Box 520112, D-44207 Dortmund. You can win a CD, also the station with the "QSL 1999" will receive a diploma. Deadline: 20.05.00

Radio Free London has suspended it's short-wave service for the time being after a act of vandalism at our site. There have been a number of strange happenings and attacks at the short-wave site over the past year with little idea who is behind them as very little or no damage was done to the transmitter. Other strange happenings have been the pulling up of buried mains cable and aerial coax, which only four members of RFL staff knew were it was buried. All the transmitting equipment has been removed and stored in a safe place. A remarkable twist to these strange happenings happened last weekend when a member of RFL staff was seen going to, and coming out of one of our sites and was challenged by other members of staff. This resulted in the said member leaving the station suddenly last Sunday morning when broadcasting equipment was returned to another staff member. It is believed that this former staff member has teamed up with another ex-RFL presenter to start a new station on short-wave called "Radio NOVA International" which was testing today on 6240kHz Radio Free London continues to broadcast every Sunday on 819AM to London and the home counties.

NEWS:

Here a bit of short news from Al the Operator of the free radio station Alfa Lima International. Just like you all to know that we are going to transmit on 15070 on a regular basis. Not every week but you will find us there a lot in the upcoming month's. Of course will we still be active on the 48 mb. <http://www.rendo.dekooi.nl/~alinter>, Alfa Lima International,pobox 663 7900ar Hoogeveen, the Netherlands

Radio Joystick can now also be found on the internet, browse to www.radiojoystick.de

More internet news; finally has the nerds from Gaanderen and Zeddam managed to make a homepage, please check out : <http://home.wish.net/~jvhaag> for info on Radio Torenavalk, Radio Tonair and Radio New World.

Radio Blandengue inform that the only valid e-mail address are:

radio.blandengue@usa.net or radio.blandengue@altavista.net

radio.blandengue@Radiolink.net was discontinued

The web page is: <http://members.xoom.com/blandengue/> or <http://go.to/blandengue>

Vogelfreies Radio's online magazine (www.vogelfreies-radio.de) is now password-protected. It is available free of charge, but you have to enquire by email to get it. Mails please to redaktion@vogelfreies-radio.de. Email addresses will not be given to somebody else, they will only be used to inform readers of updates or important changes. Of course it is possible to unsubscribe to that service any time.

JRRI hope to be back with 150 watts by Easter time. <http://listen.to/jrri/> and the new e-mail is JR_Radio@HotMail.com

In contrary to earlier reports in SRS-news Postbus 13, 9430 AA Westerbork, Netherlands is still open. It serves as contact address for Radio Black Arrow and medium wave station Radio Victoria.

The Super Station is working on a web page. You can find it on the following address; <http://members.xoom.com/stationss>. The website is not online yet (sunday morning), but DJ Paul advised to look within now and a few day's.

Radio Eastside was sunday morning transmitting in "Wide AM" mode i think. The splatter of the signal was detected from 6275 until 6330 kHz. A point of attention to the engineer/operator of the station transmitter!

As the editor might see it, Radio Blue Star has changed name!

And finally is John from Radio Titanic Holland telling us that he can not send any more free maps of Flevoland because he has no more. But he tells us that you can be the proud owner of a coloured map showing Flevoland for only DM14 / \$7 / 5 Pound / 7 Euro, a must for your collection! Send your order together with your report to RTH, P.O.Box 520112, D-44207 Dortmund, Germany.

NEWS:

Many thanks for all logs, even if the cx's are bad, you keep listening. Did not hear any pirate signal at my QTH as usuall, only Korak on 76mb. Just a reminder, I can not use Word-files with logs as I use a 100% pure DOS-px for editing SRSnews. After converting Word-documents to ASCII they take up too much time for cleaning, sry for that. And the more logs we get, the less of those boring unids we get (hopefully). / Cheers / Jonny @ SRS

Andino Relay Service tells us that they have a new homepage: <http://listen.to/andino>

RADIO ENTERHAKEN (international meaning: GRAPNEL, GRAPPLE or GRAPPLING IRON) is the name of another (new or old?!) station using this very "ugly" name for some testing purposes only. Of course you can write to the SRS HQ for your QSL card requests. Please enclose at least 1 US dollar, 2 IRCs or 2,20 DM as return postage! Only correct, detailed and useful reports will be verified 100% with our pirate QSL cards. The operator "Captain Cook", his helping hands "Schraube" and "Atze" were presenting a well produced comedy programme with much spoof stuff and Stefan Raab songs and was in entire German language only (sorry, dear English linguists!)

Because of the coming spring, the jingle department of the Free Radio Service Holland has a special SJO (Spring Jingle Offer): 10 jingles send to you in MP3 for only US \$ 80,--

These jingles can be based on any high tech production element you want. We use leading software like Soundforge and Cool Edit Pro. The MP3 files can be done in any high quality rate you want. Check our site for a demo: <http://home.planet.nl/~frsh/home.html> Or, e-mail me for details, Joop ter Zee (frsh@planet.nl)

The website of the Wizards Magic Spell has been changed in design and now features its own internal search engine to help locate certain information. Take a look at www.magicspell.free-online.co.uk

Night of horror!

It was a Saturday at 18.18 (this Saturday of course!) when Radio Spaceman was heard on 6295 kHz. Supersignal as always and a mix of good music. The well known hotline was announced, 0031 - 621948070. I called and had first a chat with Spacelady and later with Spaceman. Thru the telephone I hear a loud scream - the antenna was on fire!! Spacelady, who was just to announce the address, became so scared so she was not fast enough to reach the three switches to turn of the electricity. 45 minutes later, at 19.29 UTC came the first sign of activity again. Weakly music with a bizzar modulation that Spaceman managed to fix. I called back and Spacelady told me that it had started to rain - and the signal went the easist way over a poor isolator. And when raining dogs and cats, the Spacecrew had fixed the antenna back to work again. (HKN, 11. März 2000)

NEWS:

Radio Atlantis that was heard on 76 mb last year has closed down. The operator inform us also that there might be a new MW-station with the same name and an address in Beilen. So listen out and thanks for the time being Atlantis!

From Billy, the op of RADIO SIN FRONTERAS, we have got the following new e-mail address: RadioSinFronteras@yahoo.com The mail-address is: RSF, Casilla 159, Santiago 14, CHILE

After serious accusations concerning vandalism at the transmitter site of Radio Free London, Terry Philips the main operator behind RFL started a new radio station on shortwave from the UK; Radio Nova International. It seemed unavoidable that RFL would break-up after so many incidents. In recent emails and on various website it was stated that Terry was responsible for the sabotage at the RFL side, this is not true! Terry is not guilty of what he has been accused of! This is reason why he started a new radio station, Radio Nova International. Hopefully this shines a new light on the matter, we regret the fact that in the first broadcast of Nova International our mailing address was not mentioned, hereby both Nova addresses: Radio Nova (76 mtr, based in Holland) P.O. Box 128, NL-9410 AC BEILEN, HOLLAND
Radio Nova International (51/48/43 mtr, based in the UK) 64 Brighton Road, Leicester, LE5 0HA, UNITED KINGDOM

Next show from Radio Pipeline will be on 8 and 29th April. (via WMR)

Radio Eastside will be on air next weekend.

We also got a report that an interesting attempt was made to jam Koraks signal at 22.38 for about ten minutes.

For a special Email- / Homepagelist I am looking for URLs/Emails from FR-Stations all over europe / the world. So we can offer a new list in the near future with new informations! The list is free for all who send in informations! The print-version can be offered via Free Radio Info, P.O. Box 520112, D-44207 Dortmund (Return-postage)

JRRI will be back with 150 watts by Easter time. Big changes will be taking place at the station, with new antenna system and studio equipment. There will also be an offer for free relays when back in operation. JRRI are currently running 50 watts on the standby transmitter. Check out our web site at <http://listen.to/jrri/>, new links have been added and more to come.

RADIO CUPIDO, which was active March 12th again has not a regular contact address yet. Dr. Tim has offered to forward letters to the station. So write to: Dr. Tim, c/o FRI, Postfach 52 01 12, 44207 Dortmund, Germany.

RADIO UNICUM is a new station from the Netherlands, which had its first transmission on shortwave previous Saturday. The station uses a Rhode & Schwarz transmitter with about 60 Watts fed into a longwire-antenna. There is no contact-address for the moment, but a P.O. Box should be ready within a few weeks.

Dutch stations still seem to be unable to coordinate their frequencies. On Sunday TRANSATLANTIC RADIO and PLANET RADIO both used the same frequency for over an hour. That resulted in bad reception for both stations.

Farmers are back on 48m and RAIDED! On Sunday were the Farmers from Holland active with a low power-transmitter on 6245 kHz till 14.22 utc. It was in parallel with 88.4 MHz FM. On shortwavve the Farmers are using only 50 watts and raided the 7th time by the dutch PTT and police. More info's coming soon on <http://www.FarmersRadio.de>

NEWS:!

I think you have noticed that L48 was active again. If you did not copy the address, here we go: LEVEL 48, P.O.Box 5, NL-8100 AA Raalte in the Netherlands.

"BBMS, Ozone, and GMR will all be using the following mailing address, due to the fact that 40 Dalehead has closed down, let's hope this time we will be third time lucky! Please send all reception reports to: 85 Hillside Road West, Suffolk, NR35 1RH, England."

WRCR is now active with a homepage including a 30 minutes long real audio show, some links and a short history.
<http://www.fortunecity.se/hultsfred/bowiebacken/135/>

Seems like DPRS has closed AGAIN!

Torenvalk comes with this info:

The information about the RDR that I brought in my programme last sunday are NO joke. It seems that the authorities in Holland will change their policy dramatically. No longer will they confiscate a pirates transmitter nor will they enter a pirates home. After detecting a pirates location they are simply going to send the bill to the owner of the house with the demand to pay a fee of no less than 2500 guilders. This money is for

abusing a frequency and not for possession of a transmitter, please check www.etherpiraten.com and surf to nieuws and to RDR for more info. Mind you this page is in Dutch

The European Classic Rock programme on Saturday, March 17th was certainly not aired by the station itself. EUROPEAN KLASSIK ROCK - EKR is a regular service on the Astra satellite, which also hosts the Radio Caroline programmes. EKR can be contacted via: The Maidstone Studios, Vinters Park, Maidstone, Kent, ME14 5NQ, United Kingdom. There web-site is: <http://www.ekradio.demon.co.uk>.

The LASER HOT HITS services on 3930 and 7415 seem to be off the air, while 6219 can still be heard around the clock.

Soon there will be a new station on the shortwave band and the name is going to be Chaos Radio. More info on <http://fly.to/freeradio> and the email adres will be freeradioholland@hotmail.com. Normal post via Chaos radio, P.O.Box 663, NL-7900 AR Hoogeveen, the Netherlands

From Radio Joystick we got this message: Our HOMEPAGE is better from now on. Look for yourself and tell everybody: <http://www.radiojoystick.de>

And finally, do I have to remind you that we have April 1st coming up this weekend?

NEWS:

No April Fools jokes this year from our side, I hope you survived!

In last issue of SRSnews, we told you about the station Chaos Radio. Here is the addresses that will be used for the station: <http://noten.nl.fortunecity.com/cd/4>, email: chaosinternational@hotmail.com
 Normal mail: P.O.Box 663, 7900 AR Hoozeveen, the Netherlands

According to R. Torenvalk latest mail (published in SRSnews 13) it was stated that the Dutch law will be changed concerning radio pirates. After several phonecalls i made with the RDR (organisation responsible for tracking down pirates) they said the law was already changed in 1998 but will be effective right now. It will change two things: It now will be not a criminal act if you broadcast illegal, but will be "bestuursrechtelijk" (to put a simply: a part of civil right) offence. That will mean that the RDR is now by law able to give fines without interference of a judge/court. The fine will be raised from Fl. 500,- 1st time to Fl. 2.500,- 1st time.

Furthermore, the evidence that RDR will bring up by a spectrum analyzer is enough for fining; in other words it is indeed possible that if you broadcast on a Sunday morning you receive on Tuesday a fine without being raided! Personal I am very very very curious what will happen if a 'raided' pirate will sue the RDR and start a case regarding the evidence if it is fully legal, I wait and see what will happens. Anyway, it will be published on the RDR page end of this week or next week, so look for your selves: <http://www.rdr.minvenw.nl/> .That's all for now, don't get 'found' guys! // Radio NOVA

Paul Johnson from UK Radio appears in court today, following the raid on the station last November. Information on the outcome will appear today on www.magicspell.free-online.co.uk - just follow the link from the homepage.

Radio 510 Int. relayed US station KIPM for the first time this week-end. KIPM asks urgently for reception reports, which can be sent to: P.O. Box 24, Lula, GA 30554, USA.

According to Wizard Magic Spell, Piccadilly Radio is a new English station to hit the 48 metre band soon with broadcasts using an own 30 watts tx and an end-fed long wire. The station is operated by one of the guys behind the Radio Galaxy joint-venture which put out some live outdoor transmissions last year on 76 metres.

Some WWW news from the Super Station. Station SS is using a new http address for his homepage. The new address is <http://www.750megs.com/stationss> you can also find some pictures of the Galaxy projects.

STUDIO NORTHLIGHT announced the Dortmund address.

RADIO MARINA INTERNATIONAL was heard on the band this week-end. They claimed to be on 1179kHz as well as on 97,2 MHz too. No address heard here.

NEWS:

Information about contribution of logs to SRSnews:

We can **not** handle lists made in **MS Word** or **RTF** etc. It takes **too much time** to open in separate reader and save as txt. SRSnews is edited with time pressure.

From 18.00 local time to 100% published by 20.30! No time for extra vaganza as tables and long comments. Sry.

But we **love** ASCII-formats and if they are included in the e-mail we love it even more. ASCII-formats can not transfer macro-viruses either!

Please use D=Dutch, G=German.

QSO-stations are in 99% of the cases deleted from the list.

The frequency 6200 kHz this Sunday included 3 different CLEAR ID's!!

Hey - are you listening properly? Good Music Radio, Ozone and UK Radio was logged at the same time. Perhaps a co-operation, but.....

You can reach Radio Marina via P.O. Box 520112 in D-44207 Dortmund, Germany.

The revamped JRRI transmitter has arrived on site for installation, a complete new antenna system is to be arranged and a technician from Laser Hot Hits will be on site around Easter time to make final adjustments. Listen out for test shows being broadcast and please report where ever you hear the signal with 200 watts of music power. JRRI new e-mail is jr_radio@Hotmail.com (don't forget the underscore bit after jr). Visit the website at <http://listen.to/jrri/> with some new links added.

Via unconfirmed sources we got this message:

Radio Free London's medium wave service was attacked today. The station on 819KHz AM disappeared at about 12:00 UTC. Pipeline Radio on 1350KHz reported that the rig had been smashed and the antenna had been destroyed. Pipeline left the airwaves shortly after just in case anyone attacked them.

Pipeline came back on the air a few hours later and RFL came back with reduced power later in the afternoon.

RFL seem to know who it was but I don't want to get involved with making any accusations which may not be true.

Peter from Holland has a daily updated homepage with free radio logs, check it out:

<http://home.worldonline.nl/~knol/hflogs.htm>

Not really a pirate, but maybe interesting: Italian religious station Radio Speranza is back on shortwave. They were on air the whole weekend on 6231,2 kHz with massive technical problems. Their address is: Largo San Giorgio 91, 41100 Modena, Italy

NEWS:

RADIO EAST COAST HOLLAND announced a nighttime test on 11485 kHz Saturday night into very early Sunday 00-04 hrs UTC.

IRRS Milano is back on shortwave after lightening hit the aerial on April 6th. Last weekend only 3985 kHz was monitored, 7120 kHz still seemed to be off the air.

RADIO MARABU has dropped its UK relays on 6210 kHz to save money for local FM broadcasts to Osnabrueck, Germany. However, beginning April 19th, Marabu will have a two-hour-slot on the internet courtesy of Intersurfradio (www.intersurfradio.de), every Wednesday 21-23 hrs CEST.

RADIO STARDUST INTERNATIONAL has been silent lately due to lack of time. Another show is planned for June or July 2000 via IRRS.

RADIO TORENVALK is said to suspend broadcasts for the time being to see what effects the new pirate laws in Holland will have.

Berlin tekno pirate **TWEN FM** is now on the internet (www.twenfm.de) with a live realaudio and video stream daily between 20 and 02 hrs CEST. The station was raided on March 3rd, 2000. The netcasting DJs still announce the old Twen frequency of 95.1 MHz, so perhaps they are actually on the air again?

STARSHINE RADIO will probably be re-activated during Easter-period starting on 76 mb on Thursday night and then on Good Friday morning on the 48 mb.

FREE RADIO INFO has no computer at the moment! The complete system broke down during the week Frank told me on the phone. We will inform you when FRI are back on-line.

RADIO COCHIGUAZ is making some modifications to its transmitter wanting a alternative frequency near to the 10 or 11 MHz. Of course that its freq. of 6950L khz will continue in use as usual.

Due to the fact that there are now four stations using 6200v on a monthly basis namely **RADIO OZONE INTERNATIONAL**, **GOOD MUSIC RADIO**, **BRITAIN'S BETTER MUSIC STATION** and **RADIO PANDORA** because the loggers are only listening for five minutes they are getting confused. So would they please make sure that they are not listening to a FEATURE or an APPEALS PROGRAMME on behalf of UK Radio International on any one of the above named stations. This week we had Radio Ozone International on 6.200v he played the UK Radio Appeals tape from the studio of BBMS, he then featured "The early years of Good Music Radio", then a repeat of the combined letterbox programme and once more a repeat of the UK Radio Apepals tape. There was a lot of Gary Stevans featured, once more please make sure what actual station you are listening to.

Listen out from next week for test programmes from **JRRI** with 200 watts on 6230 or 6235kHz. And a complete new antenna system. Please send your reception reports to Post Box 39, Waterford, Ireland or e-mail us at JR_Radio@HotMail.com

LASER HOT HITS are back on 76m., but on 3935kHz.

NEWS:

I hope your Easter-period has been enjoyable. Nice to see that Scandinavia wakes up a couple of times every year, both **POWER 48** and **STARSHINE RADIO** heard this Easter. The first mentioned is unfortunately a one-time-project while Starshine celebrated 6 years on the air. No maildrop for Power 48, only an email address: pwr48@hotmail.com.

RADIO SKYLINE celebrated its first anniversary over Easter and promised more shows with the station's own tx for the second year on air.

You might have noticed in the last couple of weeks that 7120 kHz has not been heard. This is due to a lighting strike caused at the transmitter site. At the moment 3985 kHz is in operation and 7120 kHz will follow shortly, fingers crossed. Free radio programmes for the next few weeks will be suspended until further notice. More information will follow as soon as we know more. Many thanks for your understanding. / Stevie / Station Manager

This info is from Play DX No. 1065 - Date: April 17, 2000

DXer Roberto Barbolini, Bologna (Italy) reports:

Radio Speranza 6231,2 kHz is testing 24 hours with 20 Watt (Dari Monferinini writes at April 20, 2000 - 30 Watt on new transmitter) // 96,2 MHz. QTH is: Largo San Giorgio 91, 41100 Modena, Italy. Tel./Fax: (+39) 059230373. Director is: (Patre) Luigi Cordioli. Station has own programs but also relay Vatican Radio. Station has been activated at 30. March and has been heard in germany same day by DXer Hans-Joachim Koch. For more details about future tests you may contact Roberto Barbolini via email; ter7769@iperbole.bologna.it

RADIO LISA INT. which was heard April 16th for the first time is a sister-station of Radio East Side Int. They can be reached via the FRI maildrop in Dortmund.

NEWS:

Hello from a VERY hot and sunny Ytterby! Still me doing the editing, since Martin are too busy with foreign girls in his lab!! Good signals here until sun breaks through 100%. Been too warm for DX-ing anyway, about 28 degrees Celcius in the shadow! Seems also that we have a "new" station from Scandinavia up and testing. But there is also a rumour telling us that it is BlueStar fooling around. Never mind, it's a new QTH in that case! I will also remind you that Speranza is not a pirate, and are removed from logs where they appear.

Radio Sin Fronteras, relayed by Radio Blandengue receive a reception report from Japan our station was listen in this country, weak by readable.

The dutch free radio station on mediumwave "Radio Doctor Blow" has the new eMail Adress blow.otto@12move.nl

The address to Radio Cupido is: PoBox 9 8096ZG Oldebroek NL, and the e-mail is cupidoradio@hotmail.com

Skyline has closed the Dortmund maildrop, and can only be contacted via SRS, Ytterby.

Alfa Lima made it to usa on 5-7-00,23:30-04:00 utc,15069.9am,fair at 23:30utc.. improved to very good at 04:00utc..

NEWS:

The conditions are still jumping up and down, mostly down on Sundays here at my place. Nice to see Stella back on the bands. I have also noticed today that the logs I receive from Jolly Roger Radio have been noted as British Summertime, i.e, not UTC, so in earlier issues of SRSnews, JRRI with frequencies like 6235 - the time shall be decreased with one hour.

The web-address for the Piraten.WdB Address List, the pages with E-mail and WWW-urls for SW and MW pirates worldwide, has been changed to www.swl.net/swl-de/pwdb-ema.html.

JRRI has been testing a new transmitter over the last two weekends and also during the week. Listen out for signals this week afternoon. JRRI now transmits on 6235 khz. with 150W and also on 6395 khz. with 50W.
Visit JRRI at <http://listen.to/jrri/> and email us at JR_Radio@hotmail.com

NEWS:

The unidentified on 6280.2 was Radio Geronimo.
Address: radiogeronimo@hotmail.com or 64 Brighton Road, Leicester LE5 0HA

Now you can have the Laser 558 - Laser Hot Hits transmitting on one great CD ROM (only for your PC !) of just 21 us Dollar ! Its yours. On this CD ROM you can hear in Real Audio more then 40 hrs of Laser en Oslo you can listen to a lot of free radios in Holland. This CD - ROM is not for sell in the store but just fore you ! RADIO FAN !! How to become this CD - ROM ??? Just sent 21 us Dollar to R. Simonis post-giro no. 6732021 Den Haag Holland and we sent you the CD ROM in 6 weeks that's all !

Radio Stella Information:

e.mail: radiostella@usa.net

Snail Mail: 14 Stone Row, Coleraine, Belfast BT52 1EP.

FRS-H Information:

There will be an extra transmission from FRS-H at the 21st of May, starting at 04:00 UTC or 03:00 UTC in the 19mb, around 15070 kHz. The frsh@planet.nl address is closed from the 19th of May till the 2nd of June. Keep sending those E-mails but answer is a little later. Another transmisson is scheduled the 11th of June, more details about that one, later.

Listen out for a relay of RADIO 510 in the coming weeks on JRRI, now broadcasting with 150 watts.

RADIO LISA can be contaced via FRI in Dortmund.

New eMail for Bluestar Radio: bluestar@home.nl

The eMail adress continental@home.nl does not longer exist

Seems to be a new FR-homepage out there again, have a look on:
<http://www.mr-crocodile.de/radioland.htm>, also with Real-Audio!

Listen to some stations live on Internet (cheating!)

Soundwave FM:

<http://www.live365.com/cgi-bin/directory.cgi?genere=search&searchdesc=soundwave%20fm>

Radio Blackbeard,Galaxy int,and Buzz fm can now be heard every night and all weekend long over the net goto www.live365.com and put in the search box "buzzfm" (which is all one word)

NEWS:

Last week I was testing a new Windows-px for editing the SRSnews, total failure I would sum it. Back to the old DOS-px again. High QRN (noice) on the bands this Sunday morning. 41 mb was better. Several DX-ers are telling us that JRRI should move away from 6235 kHz because of the heavy QRM from utility-stations. Well Joe, it's up to you!

Next week, Martin in Germany is doing the editing, logs sent to me can not be handled as I'm out of office.

BRI may be contacted at the RWI address in Cedex France, or e-mailed to JRRI@Ireland.com and they will be passed on.

Benelux will celebrarte its 10th anniversary soon! So listen out!

There will be an extra transmission from **FRS-H** at the 28th of May, starting at 04:00 UTC or 03:00 UTC in the 19mb, around 15070 kHz.

Q103 will be back in June 2000 with three weekends "on the air", - Q 103 summerradio - as we broadcasted last year ...

The following transmission shedule should be realized:

Saturday, June 3rd, 10th and 17th : 20.00 UTC - 21.30 UTC on 10330 khz USB (long distance test)

Sunday, June 4th, 11th and 18th

07.00 UTC - 09.00 UTC on 10330 khz USB // 6282 AM

10.00 UTC - 12.00 UTC on 7510 khz USB

6282 khz isn't yet confirmed, it depends on QRM/QRN but we hope to realize it. We also plan to keep the tx running from saturday evening to sunday morning on 10330 khz to check propagations conditions also in other parts of the world. Latest shedule also available on the homepage: <http://members.xoom.com/q103.1/index.htm>

NEWS:

Quite good conditions from D towards UK saturday evening on 48. Sunday noisy, with changing signals and fading but not too bad for summer conditions. Nice programme weekend. - Very poor signals in Spain, nothing during the daylight hours.

A strange station was logged on Saturday, May 27th, on 6240 kHz, putting out religious talk in English & Arabic, changing from one language into the other each sentence and signing off abruptly at 20.15 UTC. Any ideas?

Because Radio MORNINGSTAR now has a 24 h cable connection to the web their e-mail adress is now radiomorningstar@home.nl The webpages will be soon on at <http://members.home.nl/radiomorningstar>.

New FR pages :

Radio BENELUX celebrated his 10th birthday with old tapes. Birthday cards to Box 5 in Raalte.

A lot of stations have been hear (in Germany) with very good reception-quality in the night between saturday and sunday at really unbelievable times!

A presumed pirate station (log of May 20th) at 6956,6 has turned out to be LV del Campesino from Peru. That one is for lovers of the music from the Andes !

The German OP- and listener scene is once again discussing some 'personal views' of the OP of the Radio Joystick homepage.

Plans for Q 103's summerradio :

Saturday, 3., 10. and 17th of June 20.00 - 21.30 UTC on 10330 kHz.
 Sunday, 4., 11. and 18th of June 07.00 - 09.00 UTC on 10330 + 6282 kHz,
 and 10.00 - 12.00 UTC on 7510 kHz.

Updates for this schedule at <http://members.xoom.com/q103.1/index.htm>.

Radio NOVA has a new hotline and E-mail : 079-40157293 or 0044-79-40157293 and radionovasw@usa.net.

NEWS:

Poor cx throughout europe, when I listened around 08 UTC, only sun-noice!

Interesting Novelties

There have been a few mystery stations this month. First of all an unidentified station which has been relaying Roy Masters Foundation of Human Understanding, heard on around 6300, 6305, and 6280. Is it Radio Nova??

Weekend Music Radio/ Radio Stella have both been the victims of an unidentified relay of their programmes.

WMR for example were heard on their usual 7460 channel, as well as // 6400, the weekend of 27th and 28th May. This from the alleged site in Eire. On Bank Holiday Monday, 29th May, a mystery station was heard playing recordings made from the SW the day before of WMR, which went on for some hours on 6299.5, later on 6399/6400. On Saturday 3rd June, the same programmes were aired again on 6299.5, by the unknown source. Odd?? Radio Stella were reported in Germany, on 6400, Friday 26th May, but Jock Wilson, the station manager, left the country on Thursday 25th!! Jock will be away for about a month. So it leaves one wondering the point of all the hoax relays??? I also had a report of a Radio Galaxy broadcast being aired all week, some weeks back, also around 6300.

Time to celebrate - **RADIO BENELUX** repeated its 2-hour anniversary show Saturday night on 3907 kHz with obviously much better results than the previous week on 7480. **LIVE WIRE RADIO** put out its 10th anniversary transmission the same night on 6287 kHz. Bill Lewis mentioned that **WEEKEND MUSIC RADIO** is about to celebrate his 20th birthday soon, maybe even next weekend.

By the way, Bill also mentioned that **RADIO ARMADILLO** put out a marathon broadcast of at least five hours throughout Saturday afternoon on 6287 kHz.

*"A strange station was logged on Saturday, May 27th, on 6240 kHz, putting out religious talk in English & Arabic, changing from one language into the other each sentence and signing off abruptly at 20.15 UTC. Any ideas?" **No Problems:***

NEWS:

Teststation No.1 was Power 48! This "one-time" project seems to have been too fun for one weekend. The only address is: pwr48@hotmail.com

BBMS will be relayed once again (repeated) on the 18th June at 07.00 UTC on 6200v kHz and repeated at 17.00 UTC on 5794v kHz.

Other news is that a low power test will take place from Good Music Radio on Saturday 17th June starting at 08.00 UTC on 6300 kHz, this is via a transistorised 10 watt Tx it will be two hours of presentation and continuing until battery lasts. Reception reports to: GMR 85 Hillside Road West, Suffolk NR35 1RH England would be much appreciated.

Spaceman gave komopdeband@hotmail.com as his email-address

Finally it's ende, game over, the end, finito, slut. After endless nights, it is compiled - Free Home Scandinavia 1st Edition 2000 - the complete encyclopaedia over Scandinavian Free Radio. More than 75 stations from the early 50's up till today's date. Everything presented in HTML-format.

Plenty of QSL's and MP3-audio. The CD, including Euro-shipping, will cost DM15, 5 pound, SEK60 or 7 IRC's. For other countries, contact SRS-HQ.

NEWS:

Not actually a pirate but somehow connected to free radio...

The first (licenced) private shortwave station from Finland, SCANDINAVIAN WEEKEND RADIO, is going to commence broadcasts in less than two weeks time. The first transmission will start June 30th at 22.00 UTC on 11690 or 11720 kHz. The idea is to do one 24-hour-broadcast every first weekend of the month. A look at the programme line-up reveals that the station has some pirate roots, e.g. DJ Tex Willer used to be one of the guys behind the Finnish shortwave station Right-Wing Radio in the mid/late 1980s. He will be presenting a "history of Finnish free radio". For further info check out their website at www.swradio.net or contact them at info@swradio.net. The postal address is P.O.Box 35, 40321 Jyv.,skyl,, Finland.

V.O.T.N has the following e-mail address: votn@freemail.nl

Transatlantic Radio has a new e-mail:transatlantic@soneremail.nl. The old address bart.nl is closed.

In the following weeks the new german station **Galaxy 2000** will start with transmissions on shortwave. Take a look to the frequency 6.985 kHz in AM-mode. The station use a transmitter which gives around 40 watts of power. You can contact the station at Galaxy2000@free-radio.de The homepage at <http://www.Free-Radio.de/Galaxy2000> is under construction.

The test from **Good Music Radio** using 10 watts was reasonable successful that we will be making one more test hopefully on Saturday 24th June from 08.00 UTC on 6300. This Saturday 17th June was our first test but due to a high SWR, and a very old automobile battery which only gave us one hours of transmiatting time, this little transmitter was only putting out an Rf power of 3 watts even so we understand we were well received in the Netherlands and Ireland. So reports for the further test on Saturday 24th June will be welcome. It is important for us that you DO ring the on-air hot line number.

US station **RADIO FREE EUPHORIA** made ist debut via IRRS/Radio 510 this weekend with a special broadcast to Europe. The announcer seemed to be on a Marihuana-trip, but at least he was able to give an address: P.O. Box 1, Belfast, NY 14711, USA. He said return postage is not absolutely necessary, but one or two dollars are appreciated.

North American Logs :

14565.05L, R. Blandengue (relaying Emisora Z del Dragon, R. Bermudadreieck, and airing their own program), 0024-0110. Fairly good signal with some QRM. Just above 14565 making it a little difficult to tune since it was in LSB. Heard it earlier too at around 2145 although it was very weak then. (Valko 24 and 25 June)

15070, Alfa Lima Int., 0240-0329, Dead air at tune in, then into dance music. 0242 Alfred mentioned he was adjusting and testing the modulator. Sent him a brief audio file via e-mail and he mentioned receiving it on the air. He also gave IDs and said was going to relay some stations in the near future. Very nice, strong signal. The modulation was good but maybe just a tad rough if at all. (Valko 25 June)
After hearing Alfa Lima, I took a quick run through 48 meters, but only came up with a het on 6219 (assume Laser). A lot of noise and Zambia on 6265 too. (Valko)

South American Logs : Saturday June 24, 2000

14565L khz Emisora Z del Dragon (via RB), 2100+ Jun 24, ID's Usted esta escuchando Emisora Z del Dragon, this is Emisora Z del Dragon..." then music, mx in SP & EG ID's CHL qth.

14565L khz 2130+ Radio Blandengue, s/on w/ID's in SP+EG+ IT., SRS-News ads, mx Juan Luis Guerra, etc.,

14565L khz 2200+ Radio Bermuda Dreieck s/On ID's "This is Radio Bermuda Dreieck, free radio on shortwave....." ann txs from South America, 2211: giving address in Merseburg, Germany & a little of history from the station. 2223 more comments from the stn operator. All with SIO: 352.

NEWS

From Sweden: Not much, but we have celebrated "Midsommar" here in Sweden with more important things to do than listen for pirate radio.

From the UK: Very sudden deterioration in conditions on all bands this morning at 07.45 things did improve slightly by 09.00.

From Spain : very poor signals on the weekend for the SW pirates, but fantastic conditions for the FM abroad. Tunisia and Libya during the Saturday morning and Athens-Greece during the afternoon. I enjoyed so much...

There is a new Relay service, if you can place a link somewhere, R AL Int. would appreciate it. Here the url : www.geocities.com/dutch_relay_service

Confusion about Radio Blue Moon. Was it a new one or just BLUE STAR or ANUSCHKA?

Weekend Music Radio announced tests in the 19 metre band, on 15795 kHz.

According to Jack's E-mail the R STELLA px aired this Monday came not from the R Stella transmitter!!

EAT IT Radio had many IDs and announcements by Captain Weiner. Said last week he was Radio Biscuit. Said he might have e-mail and QSLs soon and asked for logs to be sent to ACE, FRN, etc.

R BERMUDADREIECK now has an own tx and has been heard with help from CWR and in cooperation with CWR on 6260 kHz with a good signal. They even played some BNL stuff. Unfortunately the parallel QRG of 11470 Khz wasn't a success (only heard in Italy). Reports go either to Bermudadreieck via Merseburg or to CWR via Raalte. Both stations do have an E-mail address at the German provider gmx. These can be found at the SRS-Germany E-mail page at : www.swl.net/swl-de/pwdb-ema.html.

The homepage of the German magazine Free Radio Info (www.Free-Radio-Info.de) was updated with some new features. A lot of new QSL-cards are available, also the links-page and photo-page was updated. The menu is now without any JavaScript, so all people, also with older browser can see the full page.

H.-J.Koch asks for logs for his FR page at : <http://metropolis.de/freeradio.html>

Radio DR. TIM published an extensive and funny report about his recent visit to the land of the windwills. It includes R. Torenvalk, Morningstar, Unicum, Cupido and Planet R. Ask him for an E-mail copy via doctortim@t-online.de !

NEWS:

Next week, **no SRSnews on Monday!** Yeap, SRS-staff goes on holliday, and as I see it, we are worth it. Send us your logs as usual, as I do not want to handle miles of logs next coming Monday. Have a nice summer!

Crystal Radio has stopped the snail mail redistribution service via P.O.Box 663, 7900AR Hoogeveen, Holland. At this moment we can only be reached via E-mail: CrystalRadio@Worldmail.nl or FAX #: +31 208712387.

Tuesday June 27th at 05.08 local time, Joop ter Zee (FRS-H) died in the age of 40 years. He leaves behind his girlfriend Willy, his parents and his sister.

The italian station Radio Mistero Ghost Planet inform that the new address is:
 RMGP c/o Yves, P.O. Box 1951, D-79554 Weil am Rhein, Germany
 Test frequency around 7430-7450 kHz Sunday from 0730 to 0930 UTC.

6950.16U Radio Sin Fronteras (via R.Blandengue), 2043 ID 'Musica hacia todos los rincones, Sin Fronteras', then 1 poor.

14565.05L Radio Blandengue, 2256, INT-SIG ID's 'This is Radio Blandengue, You are listening Radio Blandengue 2300: ID Usted esta escuchando Emisora Z del Dragon', good.

14565 LSB Emisora Z del Dragon, Radio Sin Fronteras, Radio City (via Blandengue) 2300 - 0100, Jul 8/9, SIO 252

2000-July-9th

14565.00L Radio City (via R.Blandengue), 0322+, Mx Ipanema, 0327: mx by The Carpenters, good.

North America loggings of Euro-stations

2000-July-8th

15810 Radio Sunflower 01.05-02.05 announced test broadcast in conjunction with r.borderhunter,very good c here in usa....reports to Ytterby address

15070 Alfa Lima International 23.18-23.31 very good reception here in usa....he seems to make it here on a regl basis with very good results

NEWS:

Welcome back to SRSnews! I hope you have survived one week without us!(Hi)

This weekend suffered from aurora in north, my SW was totally ded early Sunday morning. This aurora started around 16.30 UTC on Saturday. We have a lot of new contributors from "new" countries. We thank you and all of you that regularly supplies us with logs and information. Also some new stations!

I will now be back for some weeks, maybe there will be another break later on, as I have another 3 weeks period holiday coming up in week 32.

Summer Meeting 2000. In August 19th, 2000 will there be a pirate meeting in Baarle-Nassau close to the Belgian border. Mx, good drinking and a mix of op's and listeners. Only 5 Dutch guilders as fee. Hotel+breakfast 55 guilders. Free Radio Camping (your tent) for 5 guilders. For more information, e-mail komopdeband@hotmail.com or write P.O.Box 136, NL-5110 AC Baarle-Nassau

Drastic price-cut. The **DUTCH RELAY SERVICE** cut the prices for relays on the 15 MHz from 25 dollars to 15 dollars / hour. More info on http://www.geocities.com/dutch_relay_service/

The address to **LOVE PARADE RADIO**: P.O.Box 520112, D-44207 DORTMUND.

And if anyone wonders was DJ Dr Geil means, I can translate for you: *DJ Dr. Horny!*

RADIO PACMAN announced, that he now can be reached via the Brigitte P.O. Box in Belgium. That is: Postbus 15, B-21 Hoogstraten.

Radio Sunflower can be reached via Ytterby maildrop.

First testtransmission from **Radio Galaxy 2000** in Germany on July 11, 2000 at 16.00 UTC. The Freq. is varib. on 6925 +/- 5 kc. Power is 40 watt on a Rohde + Schwarz transmitter. Please contact the Hotline No. 0173-7764638 and the email zero-crash@hushmail.com for reception reports.

JRRI will be relaying **Radio Nova** during August on 6239 kHz. As well as other European stations.

The address to **Texas Twister**: Po Box 380567, Duncanville, TX 75138 USA

A new station this weekend on 6284 kHz was **Radio Sparks** from the United Kingdom. This station has nothing to do with the Swiss Radio Sparks. No address was heard, but they announced a hotline, which is: 0044/795/653-2186.

RADIO MARABUNTA, we are a new station from the South American forest, that began its programmes recently. Our ONLY e-mail contact address is the following: RMarabunta@yahoo.com

During the last week the old german station **Radio Diamond** was on the air with some tests in the area of 7375 khz in 41m-band.

Radio Marabunta can be contacted via: Box 159, Santiago 14, CHILE

LAGUNA RADIO has a new e-mail: Laguna48@gmx.net, the old via aol is no longer valid.

The Address of RADIO FLASHBACK/Sparks: 9 The Hollies, N11 2EA London

Debate

"NEWS OF CLOSURES"

After 3 decades [30 years] Ozone Radio formerly known as "Westside Radio" may [that is may] leave the Free Radio Bands, this decision has been in the pipeline for many months, due to "YOUR" lack of response, remember letters !!!! likewise station relays of Britain's Better Music Station [25 years old] will follow.

The heyday of both stations was in the mid 70s with letters coming in at a rate of 25-35 for each broadcast but many changes have taken place over the years, the Berlin Wall came down and for some time after that letters started to drop, not only from both parts of Germany but from Europe and England.

Then along came Astra-Satellite TV with its audio subcarriers with "So called" Radio Caroline on one of them with its CD quality, followed by the "thing to be on" Internet radio, followed by SRS News and the "Logger", now there was no need to send reports by post with the cost of IRCs when you could just send an e-mail to show what you had heard that weekend and so the 3 minute "Logger" was born, once again the bulk of reports coming from Germany and Holland, while the response from the UK has always been either absent or very low.

The main thing is Shortwave Free Radio then lost the "Domestic Audience" we gave that up when we wanted to reach out further beyond our country's borders and into Europe/Scandinavia and so the "International Service" was born, this was all very nice for signal reports from the odd few shortwave listeners but we wanted much more, to tell the truth we never pulled in many of those, just fellow pirate operators and Anoraks, we have come so very far and left it behind the "Carrying on the sounds of offshore radio" that I for one wonder why we are on the air !!! or are we all past our sell by date !!!! or are we operating because we have this large collection of vinyl and are afraid to dump the lot and find something else to waste our time on !!!! or is it because we have the transmitter in the hope that things will change and the clock will suddenly turn backwards !!! or do we just like the risk of the PTT/Dti man tracking us down !!! or do we simply like to build transmitters and to test them !!!! or as a presenter is it all just an ego trip !!! You tell me, but before you answer tell me why you listen, someone once said, "shortwave stations make him feel comfortable" whatever that means.

So to get a better appreciation either by letters/ phone calls or e-mails of all the time and effort put into each transmission, where do we go, go back to the beginning !! the MW/BC band !!!! seems like a good idea to me, for now technology has given us the mobile phone, instead of waiting in the cold and rain of call boxes. Will we find that the medium wave band has changed, time has past us by once more, for the band is almost full, with low power RSL stations [28 day special area service stations in the UK] the good news is we will at last get away from the "logger" the "Anorak" and the "QSL card collector".

The bottom line is, Ozone Radio will be on shortwave for ONE month more as will BBMS, whether we stay is up to you, tell us your point of view, bear in mind European Music Radio.....GONE..hardly any FREE RADIO SERVICE HOLLAND and Radio Pandora is thinking of closing down as well.

I will leave you with one last point, not only is the logger sending his log to SRS News a great service in itself, but pick up any club newsletter and the same group of so called listeners are in these publications as well, never ever of thinking of writing to the stations they have logged !!!!.

Your input to this output would be most welcome either by e-mail or snail mail simple make contact to the following or e-mail SRS News. (bbms4ozone@compuserve.com or srsnews@srs.pp.se)

MEETING:

Es sind nur noch wenige Tage: Das DX-Camp in Merchweiler/Saarland rückt immer näher: Vom 04.-06.August 2000 findet dieses wohl größte deutsche DX-Camp statt! Ich hoffe, man sieht sich!!!

Ich möchte Euch an den folgenden anstehenden Termin nochmals erinnern:

27.Internationales SWLCS-DX-Camp in Merchweiler/Saarland!

Datum: Freitag, August 4, 2000

Zeit: Ganztägig 04.08. - 06.08.2000

Kontakt: Peter Hell, Postfach 1230, D-66585 Merchweiler

Tel./Fax: 06825-8380

E-Mail: p_hell@ur.pils.de

NEWS:

From the UK : Thanks to the storms, conditions were dreadful on Friday evening. However Saturday evening and this morning the 48m band finally after weeks of poor reception seems to be improving.

From Sweden : After about two months of rain, it has finally stopped pouring down, so it has not been too much radio listening this weekend. Had a lot to do in the garden today, Sunday, so I had not the time to wait for station ids, so there is some UNID stations. [As the song for the flood victims in mid america said - To much rain over paradise. BTW, this year Jonny was able to spent his fishing holiday while sitting on his balcony.] ([Ha Ha Jonny replies](#))

Here's a little excerpt from "Radio ARGUS News" Volume 4 Issue 2. Everyone should make ist own opinion about it: "Here at Radio Argus we do have an e-mail thing (radioargus@cheerful.com) but we have not checked it for the past year. We had it set up to screen out the saddoes, in order that the normal listener would use proper mail, and get responses, while the saddoes would be e-mailing us and going mad when they didn't get an answer."

Bad news to all Bandscan enjoyers ... Sadly I have to put down Bandscan 186 due to lack of time, I just need to give more time for studying, so atleast for the coming three-four years Bandscan will be down. But even though bansacan is going down, there's still Hans-Joachim Koch's excellent webpages to go to. So please send all your logs to Hans-Joachim at: hansjoachim.koch@planet-interkom.de. Occasionally I may issue Bandscan with the Newssection only. Have a nice summer & don't give piracy up! Patrik

OZONE's transmission on Sunday was the last Sunday morning px for the time being. Next Sunday will be on 52 metre band (5781 kHz) from about 19.00 (18.00 utc).

BERMUDADREIECK RADIO thanks all the listeners who sent a letter or an email to us after the last broadcasts with the own tx and also for the broadcast in cooperation with Crazy Wave Radio and for the programs via Radio Blandengue in South America. DJ Dipol hopes to see you in Merchweiler next weekend. .

Radio DR.TIM informs us about his current CD-list with Dutch Pirate songs. Contact him via E-Mail via the FRI address in Dortmund.

The jv of RADIO BLUE MOON & PLANET RADIO can be reached via Planet Radio in Zwolle. Another jv was LASER 208, R LISA and R EAST SIDE.

Nothing via IRRS this week due to a lightning-strike into the transmitter.

Radio BORDERHUNTER caused very strong QRM up to +/- 30 Khz to his own frequency on Saturday evening.

Everybody who is interested can receive actual shows of Radio Joystick from now on. On CD or via MP3-webtransfer. Just send 10 DEM, your snailmail-address (with details) or/ and your email-address to P.O.Box 100812, D-45408 Muehlheim/R.

DEBATE: "NEWS OF CLOSURES" (SRS 30-2000)

Here is a follow up by Gary Stevans to last week's article entitled "Debate"

Well what a response about the possible closures of Radio Ozone and BBMS, only TWO e-mails have come into us one of those saying "I have been following Radio Ozone since the 1970s when he called the station "Westside Radio" but have never contacted the station, I live in Dublin Ireland [please bear in mind that Ozone is also in.....Dublin] he went on to say " I think there must be many like myself who do not respond to free radio stations, just listen" what annoyed me about this e-mail was he didn't even say that he would miss the output from Radio Ozone or BBMS or that he even had enjoyed one show, well my reply was we don't need the likes of "Passive Listeners".

The other e-mail came in from a logger who said "I am one of those loggers who tunes in for more than 3 minutes and I take exception to your comments saying I do not tune in longer, I send in regular reports to SRSNews, I would also like to point out that Ozone and BBMS are very weak with me most of the time on a Sunday morning" well my response was so are Jolly Roger Radio and Lazer Hot Hits both on 6 mhz so why do you listen, obviously just simply to add us to your logs.

Well the word has spread around about the possible closures of Radio Ozone and BBMS, so much so that the worms are coming out of the woodwork at this final hour, well all I can say is "It's too late with regards to Sunday mornings" as the Sunday morning service WILL CLOSE DOWN.

The good news is we will be continuing with a Sunday evening service, this will take place at 19.00 hours BST on either 5.775 or 5.780v. Needless to say your support either by letter, e-mail or phone call would be highly appreciated.

Now we know that we get very well into the Eastern Bloc countries and that the response is quite good, all we need now is to get some response from the UK and the rest of Europe. Having heard the test transmission this evening Saturday 29th July between the time period of 20.15 and 21.18 on 5.781.65 the signal was a constant S9+40dB peaking to S9+60dB, so we know that the signal from Ireland is reaching the low reaches of the UK once again all we need now is for you to take note of the day, time and frequency, tune in and put pen to paper and send in your comments, criticisms and suggestions.

Other news is Good Music Radio will be coming off shortwave.

Other disappointing news is we have not heard from XTC or Subterranean Sounds about keeping the frequency of 6.200 open on a Sunday morning due to this fact Union Radio in the Netherlands has been contacted and it is hoped that he will be using this frequency on a regular basis, so once again slowness on the part of two UK station operators or is it lack of interest.

So the bottom line is Sunday evenings 19.00 hours BST 5.775 or 5.780 for the continuing sounds from Radio Ozone International and BBMS.

NEWS:

Heavy magnetic storm this weekend (Aurora) with sky-high K-values. The SW at my place was totally ded!

Pandora 5th birthday show soon coming up. With a special limited QSL card for all listeners writing in. The show might be aired Sunday 20th of August, but if conditions are poor, maybe later. Address via Ytterby.

Next Sunday 20th August, **Radio Ozone** will be on or around the frequency of 5855 with fresh programming from Bobby Sparks with the all German service and of course Robbie Duke and Gary Stevans.

Radio Powerliner International is now to be heard on SW & MW. Check out 6275 kHz SW and 1646 kHz MW. Their address: P.O.Box 128,9410 AC Beilen, The Netherlands Or check out their homepage at: www.powerliner.cjb.net

Crystal Radio has changed their e-mail: crystalradio@hotmail.com

Black Arrow uses P.O.Box 128 in Beilen, the Netherlands

Participating stations during this years Merchweiler DX-Camp:
 Star Club R., R.Illusion, R.Little Star, R.Eeast Side, R. Bermuda Dreieck, R. Perfekt, R. Sommer 97, R.Likedeeleer, R.Bobby, R.Dr Tim, R.Lisa, Phantasie, R.Network, R.Metropolis, Loveparade R., Voice of Germany, R. Communication, R.Polkawelle, R.Wonderful, R.Royal, R.Millennium 2000, R.Nordsee Int., IMR, R. No Name, FRG, R.Galactia, R.Breakdown, R.Matterhorn, Clinic R. R.510, Record R., R.Sparks, Digital FM 103,5

The **Farmers** are back. On Sunday evening could a programme on 6221,1 kHz be heard with Martin from Kiel. About 50W was in use. The address: P.O.BOX 108, NL-7720 AC DALFSEN, the Netherlands.

NEWS:

Very poor signals reported from Spain. Radio Pandora celebrated 5 years on 48 mb this Sunday with a special px from John Sandy. Star Club Radio was concentrating on high power this weekend with a px via Blue Star. Torenvalk also heard again. He seems to have come over the new Dutch radio-law.

Martin Schöch doing the SRSnews next week.

I have some problems with YOUR logs! Yes, I receive several loglists, not only personal ones. Some editors mark foreign logs with special letters or in word, and I delete those logs as I can not handle them. But when I receive logs that are identical in time and details but listed as logged in different countries and I have the original log here, I get confused! If this can't be sorted out I have to leave the edited lists coming in here. Less sure information. The SINPO-code, as I see it, is only information for the station. And giving out another persons SINPO in a huge list without mentioning origin..... I am confused!

RADIO ASTORIA from the Netherlands has been noted in other loglists to be reached via P.O.BOX 663, NL-7900 AR HOOGEVEEN. This is not correct, Radio Astoria is not an member of that maildrop. No further info available.

Pirate Reflection edition 2 2000 will be published by end of August.

PIRATES SAM

14565L WFCC Germany via Radio Blandengue, 2200 - 2248*, Aug 19, German, Spanish and English, several references to WCMR (old name) ID "via the facilities of R. Blandengue you are listening Wonderful Free Communication Company the new name of this station" 242

From the editor : Thank you to all contributors. Alsotnx to all those that send us their 'weekly news', i.e.Mr.Pecolatto and Dr. Tim.
Martin

NEWS:

Info via Planet Radio: (RAID)

Today Monday 28 August 2000 I have being raided by the Dutch PTT (RDR) Due to HF reflections on the telephone lines in de the neighbourhood! The fine will be Hfl 2500,- Thank you for the time that you have listen to me. And for the other pirates TAKE CARE.. The contact addresses of PLANET Radio are: PO.BOX 1104, NL-8001 BC Zwolle. E-mail : planet@home.nl

The correct way in order to contact Radio ASTORIA : c/o Union Radio, P.O.BOX 663, NL-7900 AR HOOGEVEEN.

At the weekend RADIO TORENVALK visited Germany. The result has been on air in a jv with Radio PERFECT and Radio DR.TIM as RADIO PTT. They promised a truly quite fantastic QSL for RR's of RADIO PTT! The addresses: P.O.BOX 520112, D-44207 Dortmund or P.O.BOX 94, NL-7038 ZH Zeddarn.

Radio MG - this ID has been hear on 6400,2 Khz on late Sunday afternoon/evening Unfortunately the modulation was somewhat dull. A Call from Dr. Tim to R CRYSTALL revealed " ... yes Dr.Tim, that is me - with a takeover of a regular FM station" ! RADIO MG is a small Dutch local and official FM station and RADIO CRYSTAL took on the station with their knowledge over his Grenade Tx! Reception-reports (snail mail) to RADIO MG can be sent to Radio CRYSTAL via the FRI address in Dortmund !

Radio POWERLINER from Holland has been logged on several days of the week, and almost always with strong signal. The mailing address of the station: P.O.BOX 128, NL-9410 AC BEILEN.

The new RADIO BROKEN DREAM had the first px via the Radio 208 tx. It can be reached via the SRS Deutschland, Post-Box 1136, D-06201 Merseburg. Another px via Laser 208 war Star Club Radio, SCR can be reached via FRI, P.O.Box 520112, D-44207 Dortmund.

R. Likedeeler announced a new address: Postbus 73 , 7160 Neede, NETHERLAND

PIRATES SOUTH AMERICA:

14565.05 Radio Blandengue, 2045+ test transmissions previous to official sked, w/ID's in SP+EG "From somewhere in South America, this is Radio Blandengue" 2056: "Desde algun lugar de America del Sur esta transmitiendo para usted Radio Blandengue....", good.

14565 kHz LSB Emisora Z del Dragon. (via Radio Blandengue) 2100 - 2130, 9 Sept, ID in Spanish and English address in Chile, SIO 242

14565 kHz LSB Radio Sin Fronteras. (via Radio Blandengue) 2130 - 2215, 9 Sept, ID "Radio Sin Fronteras...musica hacia todos los rincones", SIO 242,

14565 kHz LSB WFCC (Alemania). (via Radio Blandengue) 2215 - 2302*, 9 Sept, ID as La Voz del Futuro in Spanish also in English announce of address in Germany, SIO 242, and on the s/off announce Via de facilities of Radio Blandengue you are listening to Wonderful Free Communication Company the new name of this station

NEWS:

We received this message from Radio City:

Radio City will answer all reception reports. As our maildrop is a bit on the slow side you have to be patient. We have not got any letters forwarded from our maildrop in almost a year. Radio City can be found then and there on 76 and 41 mb. Listen out.

From Joe Vincent at JRRI we got the following message:

UK Radio have been broadcasting on 6.240 last week and recently. JRRI have been on 6239 for some time now and we will be staying there until 6235 is clear. Really coming on with a transmitter 1 khz. away is a bit pointless. If they want a relay no problem from JRRI but do not block us like this please, this will not gain them any listeners. //Joe Vincent.

Radio Free London is now on air and broadcasting 24 hours a day for the rest of this week, with a line up of 10 presenters with two hours each, making up 20 hours of broadcsating time non stop. The transmitter will stay on the air until next Sunday evening, and from then on we hope to run a regular Sunday service on 5805 every weekend.

The HF appeared very strange today with cx's going up and down. Strong signals sometimes and then suddenly almost gone. The VHF was very good towards north and east, maybe some connection? This year, and probably next, the lower bands are not in favour. Stations who has the possibility to test on higher bands should try that too. Could give unique reports. Specially German and Dutch stations could have benefits of this towards asia.
Not so many logs this time, probably very bad cx!

NEWS:

Message to all stations using the Wuppertal maildrop:

Today, 18th of September, 2000 all stations have been checked and all letters have been posted. If you do not receive or have received your letters, please, take a look at www.dropbox.de for any reason!

There are 3 reasons several people will not get any letters:

- 1) You forgot to pay for postage and packing (entry marked "no funds"). That's your fault! Don't blame us!
- 2) You forgot to tell us your new address (entry marked "no address"). That's your fault! Don't blame us!
- 3) You did not got any letters. That's your fault! Don't blame us!
You should broadcast more frequently or do better programs ;-))

Hello, we are a new free radio station from South America, Radio Exotica is a new free South American radio station in the next weeks will be oin the air via the facilities of Radio Blandengue our nusic style is music from the world (Zimbawe to Greek and arabic music) our e-mail address is: exoticaradio@yahoo.com and our snail mail address is:
Radio Exotica, Casilla 159, Santiago 14, Chile // Afro Dita, Operator of Radio Exotica (I am a woman)

ANDINO RELAY SERVICE, 6880L kHz.

From today, our new email address is: arssw@yahoo.com

We decided change the same because the high quantity of spams & ads received in our ex-usa net address. As usual, our P.O.Box 159, Santiago 14, CHILE will continue, of course ! Pachakuti

NOW AVAILABLE!

Free Home Scandinavia 1st Edition 2000 - the complete encyclopaedia over Scandinavian Free Radio. More than 75 stations from the early 50's up till todays date. Everything presented in HTML-format. Plenty of QSL's and MP3-audio. The CD, including Euro-shipping, will cost DM15, 5 pound, SEK60 or 7 IRC's. For other countries, contact SRS-HQ.

NEWS:

R Benelux is using now the Postbus 73 in 7160 AB Neede, The Netherlands.

Stations that are using the 'Postbus 663' maildrop are: R Chaos, Union R, Voice of the Netherlands, R East Coast Holland, R Alfa Lima International, Dutch relay service and R Astoria

Radio Skyline was very active this weekend with a lot of tests an full programms. His 10watt transmitter produced very nice signals in europe.

JRRI wanted to do a test to North America on Sunday 24th Sept. on 6239 kHz. from Midnight GMT.

Question from R AL Int : We realy need to ask you if you can help us with info about that station the was last few months on 15.065 MHz ? Is this army stuff? We were active again this sunday on 15070 kHz but is this still a wise thing to do??? I do not know , hopefully one of you can help us with it to clear things up.

R BLANDENGUE has been herad in Japan according to station-OP R. Gonzales.

The Wuppertal-mailbox has sent out all remaining letters in the last days. An overview can be found at www.dropbox.de. Several stations received a lot of old reports since then. Good, that the finally arrived.

SRS Germany changed its web-address to www.clandestineradio.com/martin/ The older addresses at swl-net, geocities and fortunecities do not work any longer.

IRRS was hit by a lighting last week. I remeber this happend before in the past!

Radio News from FRC Germany has released their final Millenium Edition. Radio News has been published for 29 years and will now close down. If you want to have a copy, send DM10 to FRCG c/o Leonhardt Electronic & Medien, P.O.Box 1947, D-77609 Offenburg, Germany.

NEWS:

About some questions about frequencies, we got this answer from a well known utility DX-er:

The frequency range between the standard frequency and time signal stations on 15000 kHz and the edge of the 19 metre broadcast band at 15100 kHz is dedicated to aeronautical mobile services. In plain English that means communications between aircrafts and terrestrial stations. This includes military networks and like all SSB bands it is divided into 3 kHz wide USB channels starting at 15010 kHz and ending at 15097 kHz. In the mid range there are Canadian military operations on 15034 kHz and Berne Air in Switzerland on 15046 kHz. The channels affected by current free radio activity are 15061, 15064, 15067, 15070, 15073 and 15076 kHz. As you might recall BBC World Service had to give up their longstanding out of band frequency 15070 kHz because it was in an aeronautical band. The BBC used to call it a feeder frequency to disguise their use of out of band frequencies. There are certain especially frequencies in the 48-metre band like 6215 kHz you should avoid as they are secondary emergency frequencies but I would consider this segment even more suspectable off official action.

RADIO COCHIGUAZ inform that have been repaired its own transmitter after a delay along 5 months looking for a new frequency for reach to the World, according to the propagation conditions. Finally, -the most difficult for us- we obtained and placed the coil & capacitors necessities and the transmitter now is ok, and we will be actives soon also on the NEW freq of 11440 kHz USB. On this days we are waiting only for to receive the crystal for to start our pirate activities testing on this frequency, and in the meanwhile, we are preparing the new system of antennas for the new channel. Our main frequency of 6950 khz LSB also will continue active. <http://members.xoom.com/rcochiguaz/>

WRCR was active again via Radio Pandora. WRCR origin from the Stockholm area in Sweden and is also active on FM there at random occations. Address via SRS.

Radio Exotica will be on the air next weekend, via R.Blandengue according to the following sked:

Saturday October 7, 2000 on 14565 KHz LSB, 1830-1900 Radio Exotica

Sunday October 8, 2000 on 14565 KHz LSB, 0030-0100 Radio Exotica

NEWS:

Not much to add. Poor cx here in Ytterby as allways, or was it because Level 48 was on air? Seems to be some coordination there, hi. Heard AL with low power and gave him a call.

Special Px this weekend from a NEW mediumwave transmitter in Gothenbourg!! Check 1584.3 kHz. Swedish px. Friday from around 07.00 UTC and on Saturday approx. the same time. Ends around 12.00 UTC. Power: 150W Not a pirate, but perhaps interesting DX-news.

This month, on Sunday October 29th, FRS-Holland will be putting out a very special broadcast to the memory of Joop ter Zee. At the same time we celebrate our 20th birthday, two decades of FRS-Holland on SW. Perhaps a bit of a strange combination but we feel we must do it in this way. The broadcast will be taking place between 08.00- 13.00 UTC/ 09.00-14.00 CET (wintertime!) within the 48 mb. We would like to invite all FRS-Holland friends to participate. If you have your FRS heart in the right place, you take part sending us your very personal contribution. Tape it (a 1 or 2 minute message will do!) or just put some words on a sheet of paper. The contents: just let us know what comes to your mind when thinking of Joop ter Zee and/or 20 Years of FRS-Holland on SW. Memories, thoughts, just express it in your very own unique way. What brought Joop ter Zee to FRS-H, what meant FRS-Holland to you ?? All contributions will be carefully handled and played (or read out) within the programming that day.

Remember: your input is our output. Allowing us to prepare the broadcast without too much time pressure, we kindly ask to send your contribution before October 18th! Your participation will greatly add to an unforgettable transmission.

Cassettes with recorded messages should be sent to: FRS-H, P.O.Box 2727, 6049 BE Herten, the Netherlands. Alternatively (if you are not able to record something) send your written message via Email or snailmail. Perhaps it costs you 30 minutes of spare time... We count on you!! Apart from your contributions, we play that day a lot of Joop ter Zee and FRS-Holland extracts from our archives, great music from the 1980-2000 FRS era, we have the FRS Goes DX show with the latest from the world of wireless and.....

A very unique QSL-card is available for those sending in a correct reception report. Any future Email should be sent to one of these addresses: **new!!** frsh@club.tip.nl or peter.verbruggen@tip.nl. Soon our website will be moved to a new address: <http://frsh.club.tip.nl> . The website is not operational yet but we hope this will happen very soon. Any hot news regarding the upcoming broadcast will be sent by Email or is to be read on our website, created by the late Joop ter Zee. Please no more Email to frsh@planet.nl .

The latest edition of the FRS Newsletter is out now. We can send you the booklet by snailmail (DM 3.00 (cash or in stamps) / one English pound/ three Dutch guilders/ 2 IRC's) or via Email (make your choice: Ascii, Word2000, Corel WP9). Any questions? Don't hesitate and drop us a line. Remember Sunday October 29th 2000, a very special day in the life of FRS-Holland. I say it one more time: **we count on you!!**

SOUTH AMERICA PIRATES

October 14th, 2000 (Saturday)

11440U Radio COCHIGUAZ, *1952-2120+, s/on w/El Condor Pasa, then INT-SIG & pgm totally in Quechua, with lots of ID's & andean vernacular music, a great variety of native wind instruments & vocals. SIO: 444

October 15th, 2000 (Sunday)

11440U Radio COCHIGUAZ, 2300-0104*, ID's in Quechua, then vernacular native andean music, charango music. SIO: 343

NEWS:

Not much to report. Some Aurora this weekend made the SW suffer a bit. The only station heard here was on 6206 kHz/SCR. Long time since I had Wrekin Radio International on the list. Due to the nice propagations on higher frequencies this year, and maybe also next?, more tests and regular px should take place up there.

WRCR will soon do a test via their own outlet. About 40W into a vertical antenna have we been told. Probably nighttime on 48 mb around 6.3 MHz.

RADIO COCHIGUAZ informs that their signal, according to the emails recived up today, was heard with good quality in the Eastern part of USA, and in some South American countries on its new frequency 11440U kHz. They will confirm 100% all snail reports received.

NEWS:

News from "cumbre" october 16:

CZECH REPUBLIC Yesterday (OCT 11 at around 1600 UTC) I heard a pirate station relaying Czech commercial station RADIO IMPULS on 6285 kHz. I think the transmitter is located in northwestern part of the Czech Republic (Usti nad Labem, Liberec, Jablonec...) or in Poland. They relayed Radio Impuls from 102.0 MHz (Usti nad Labem / Bukova hora) with commercial spots for North Bohemia. (Radio Impuls has separate commercial blocks for each region).
 (Karel Honzik via Marie Lamb)

MIKE RADIO is perhaps an old station coming back on air. Last time active was back in the 1993-94?. No valid address at the moment. Valid home-page address and e-mail is mikeradio48@hotmail.com and <http://www.mikeradio.cjb.net> When I have further info, I'll let you know.

Radio Delmare and Sunflower was testing new equipment this Saturday. Unfortunately I had to go to a radio-meeting and had no time to give notice about the change of frequency that occurred. Nice to hear anyway that Delmare is active again! Address via R.Borderhunter.

Radio Waves International has a double anniversary coming up in November.

1: 17 years on the short wave

2: 10 years with the "Country Music Show" hosted by Peter HILLS

Special QSL and special programs. Go to the homepage at <http://go.to/rwi>

NEWS:

>Spain : few logs from my side. Poor signals as usual, a lot of fading, in fact no propagation at mid morning.

>Sweden : very dull weather with rain, but the conditions was fairly good, even if I have some UNID staions.

The drop-box in Raalte will close at the end of the year. The stations BNL, CWR, Laguna, Likedeeler, Skyline use the box 73, NL-7160 AB Neede from now on.

The status of the the Czech Radio Impuls still remains unclear.

Starting in November the former readers of FREE RADIO INFO will get the bulletin of the East and West Radio Club. That bulletin contains a FR section written by Frank Markert who stopped publication of FRI some time ago due to personal reasons. The pirate drop box in Dortmund remains open but the delivery times to the stations may extent a little.

Once more he contact address to SONNET Radio : sonnetradio@hotmail.com & qsl@sonnetradio.netscapeonline.co.uk

Web : www.free-radio.de/sonnetradio

Tel/Fax: ++44-807 134 3548 (UK)

Radio TITANIC INT is back due to a recent press release from the station. 'This autumn we will have some other shows via some European power houses too presenting all the DJs who appeared on RTI during the preceding 25 years.

Please welcome them all by listening and writing to RTI.' and 'By the way, we received some more letters from our Wuppertal box but we suggest you to write to the SRS maildrop in Ytterby only from now on. It's the better choice for any mail to our station.' 'Unfortunately RTI will cease its transmissions at the end of the Y2K due to several personal reasons. Nevertheless, we aren't neither sunk nor dead but we will retire for the time being and will take a break for an indefinite time. Thanks for your patience with us during the past 25 years.

Please always FIGHT FOR FREE RADIO and remember the TITANIC!

Tim Cooper and Mark Brown for all the RTI crew members'

Can somebody help us with "Super Station" at 6240,3 ? A call to the Station (0044-787-9263178) did not reveal, if the station is idetical with Station SS.

The obviously drunken OP gave P.O. Box 53, Bilston, Wolverhampton, WV14 6YS as adress. But Station SS uses SRS Ytterby, doesn't it ? [Perhaps this is Sonnet Radio ?]

Laser 208 had a transmission this weekend that feautered some oldies by the Beatels in the first hour. The second hour was done by Roy Clark as part of the Laser 208 px. But on early sunday Roy Clark played some more oldies, now as Star Club Radio.

LIVE WIRE Radio had a very powerfull transmission. He played Modern Talking, Sandra and Billy Idol, the latter especially for Paul from Station Sierra Sierra. A very needed advice was given too : The location of the station address is spelled L-E-I-C-E-S-T-E-R and spoken: "Lester". Thank you for the advice, Bill !

LEVEL 48 likes to say thank you very much for your support to our last transmission from 6th- 8th October 2000. We (Jens Martin & Chris Ise) have got around 30 callers for our marathon transmission aired completly from Germany this weekend. 22 hours of non-stop programming was a good opportunity to show that from time to time long transmissions can be done also from our country by own equipment.

As mentioned in different log lists there will be given out no QSI card for this transmission although some of you could not agree with this new kind of policy. SORRY!

So keep in touch via Internet or phone and stay tuned to Level 48!

Jens Martin (Benelux) & Chris Ise (CrazyWave Radio)

NEWS:

Radio Astoria has an email addrees now, it is radioastoria@hotmail.com
 Snail-mail via astoria radio, pobox 663, 7900ar hoogeveen, the Netherlands.

RWI's double birthday - 17 years on the air + 10 years of our "Country Mx show" During all weekend of November under the special name of WCS2000 See our webpages for more details <http://go.to/rwi>

Perhaps not expected....next Sunday will see a full repeat from last Sunday's combined Joop ter Zee Memorial Broadcast/ FRS 20th Birthday. I will keep my promise from last Sunday: there will be a 50 min. FRS Goes DX Show (at 10.00 UTC). As the full prpgramming will last more than 6 hours, we are starting as early as just after 07.00 UTC, 08.00 CET wintertime! Frequency could be 6280 kHz. Have a nice (FRS) weekend, 73's, Peter V. (on behalf of the FRS Crew)

SONNET R. on 6950.4 has been on the air all night long and the female announcer named Linda gave a UK phone number: 0787-9263178.

You might be interested to know that BBMS via Radio Ozone will now during the winter months be leaving the 48 mb (6.200 khz) and continuing on the 42 mb namely 7.445 khz, starting at 07.30 UTC/local time of course as like any other pirate radio station we would like your feedback and seeing as pens are drying up and paper is obviously being used for something else - I won't say what -and telephones are a thing of the past pirate station wise, why not e-mail us at bbms4ozone@compuserve.com with your reception reports, comments, criticisms and what other input you would like to pass our way. Then again if you would like a silly piece of paper to stick on your radio shack wall and a fact sheet why not write to us our snail mail address is 85 Hillside Road West, Suffolk NR35 1RH England, not forgetting of course some form of return postage. *Gary Stevans*

1. I'm currently writing the 3rd edition of the "Pirate Radio Stations" book for McGraw-Hill. As in the past, the book will look at shortwave pirate radio from a North American perspective, but there will still be some information on European pirates, and I'm hoping to include some QSLs, photos, etc. from Euros.

2. Things are looking good for a 2001 Pirate Radio Directory (covering 2000). I've been working hard on it over the past few weeks. FYI, this is an annual guide of North American pirates that was available from 1988-1998. I think the cost will be about \$10-\$15 US, but I'm not yet positive.

My info: Andrew Yoder, POB 642, Mont Alto, PA 17237, info@hobbybroadcasting.com, <http://www.hobbybroadcasting.com>

Here is the new schedule as of Oct. 29, 2000 from IRRS-Shortwave in Milan, Italy - broadcasting to Europe, N Africa and the Middle East :

0530-0700 UTC on 3985 kHz (daily)

0700-0800 UTC on 7120 kHz (daily)

0800-1600 UTC on 7120 kHz (Sat & Sun)

1800-2300 UTC on 3985 kHz (daily)

2300-0000 UTC on 7120 kHz (Fri, Sat & Sun)

NEWS:

By strange ways, we've got the information that Willem at Planet Radio is ded. No further details.

SWRS has received from Wuppertal an incredible number of reception reports, and hope to send out their QSL card before the end of 2000 ! They also report that they have a new home site at <http://www.swrs.org>

MIKE RADIO now has a postal address. They can be reached at Postbus 23, 8090 AA Wezep, Netherlands. Also new is their web-site: <http://www.mike48.com> and their e-mail-address: mail@mike48.com.

Alex Warner, the operator of RADIO EAST SIDE also announced a new address:
SRS-Deutschland, Postfach 11 36, 06201 Merseburg, Germany.

Finally the new url for the Radio-Homepage of Martin Schoech / SRS Germany is
<http://www.clandestineradio.com/martin/>

Please do not use the old pages of SRS Germany at www.swl.net any longer. Unfortunately I can't remove or replace these old pages at the moment.

A new Dutch station calling themselves for Enterprise radio has appeared on 6275 kHz with low power. Address via 663 in Hoogeveen and e-mail: radioenterprise@hotmail.com

A new German station called Linda Radio has also been active this weekend. Frequency has been 26005 kHz USB +/- 10 kHz. Power approx. 10 Watts USB. To contact the station, call the station via phone or SMS: ++49-(0)178-5518108.

Radio East Coast Holland and the Voice of the Netherlands will be active again this New Years Eve on both 48 and 41 mb with 150 / 800 Watts. More info on <http://members.nbci.com/echolland>

Some Eurostations, as heard in the U.S. by Valko Nov.19th, 2000

6238.63	R. Cochiguaz	07.30-07.49	Andean flute mx, DJ Cachito w/ definite ID for R. Cochiguaz at 0747. Given the freq, I presume this was via Jolly Roger R. Just strong enough to ID.		
6305.12	Alfa Lima Int	07.26-07.37	Mx, Alfred giving Netherlands addr, IDs and Hotline phone number 619-508-928. Fair and clear but not really strong. Quite listenable though. Still coming in at 0810 recheck.		
6266.46	Unid	07.26	Het here w/bits of audio. Too weak.		
6209.78	Unid	07.27	A het w/extremely weak audio, about as strong at 6266.46. QRMd by an Arabic stn on 6210V around 0800!!!		
6230.75	Unid	07.55	Just a weak het, may be nothing though.		
6248.1	Unid	07.56-08.00	Heard definite mx, but noted time ticks (I think there were 3+1) exactly at the top of the hour, so maybe a bdcst stn?? Equatorial Guinea maybe??		

NEWS:

Nice to see Wrekin Radio back on the air! Nothing more to report from my side, Martin doing the hard work next week.
73s and good DX / Jonny @ SRS

The address to Station Golf Victor are unknown. The address Postbus 129,8400 AC Gorredijk, NL sends the letters back. Pse help us out here.

MIKE RADIO, address: PB 23 , NL-8090 AA , Wezep , The Netherlands

FREE WAVE RADIO, address: PB 154 , NL-8090 AA , Wezep , The Netherlands. Co-operates with Mike Radio. Heard on 6290 kHz.

RADIO HERCULES gave an address of P.O. Box 128, 9410 AC Beilen, Netherlands

Euro-Pirates heard in the US :

ALFA LIMA Int.: 6305 AM, 0501-0521+ Nov. 26. OM ancr w/Europop music. Lenthly ID and phone # anncd around 0514. SIO:222 [Lobdell-MA]

Crawled out of bed a little later this morning. Again, conditions were rather poor but I did manage to hear signals with audio on these freqs: 6238.64, 6266.44, 6280.26, 6295.39, and 6305.14.

6238.64 Jolly Roger R., 0836, guess this it the one heard again. About the best signal but about the same strength as 6295.39

6266.44 Unid., 0834, Definite audio at this time, but just barely in. UTE here as well similar to the one on 6295. (Valko 26 Nov.)

6280.26 Unid., 0833-0921, Bits of audio. Definite mx w/M anncr. Still here at 0921 recheck. Extremely weak signal w/ local buzzing QRM. (Valko 26 Nov.)

6295.39 Unid., 0840-0908, Imagine this is a U.K. pirate as it stayed in fairly late. Pop mx w/M anncr host. Was able to recognize "Desperado" by The Eagles from 0858-0901. The weak signal and the on-and-off UTE here made annmnts impossible to copy. (Valko 26 Nov.)

6305.14 Unid., Alfa Lima Int??, 0830-0847, What sounded like dance mx w/M anncr at least once. (Valko 26 Nov.)

Others possibly heard without audio on these:

6258.91 Just a het here around 0835.

6200.04 A het heard from 0836 past 0900.

6286.13 A het here too at 0914. Thought I might have had audio but could've been my imagination.

Sorry I wasn't able to ID any of the stations. I'm certainly looking forward to finding out which ones I heard!!

Take care and hopefully I'll have a better report (conditions permitting) next week. (D.Valko'-USA)

South America logs

November 25th, 2000 (Saturday)

11440U Station Q Jazzlighthouse, 2004+, ID "You are tuned Q 103 Jazzlighthouse from Europe", then music. AT 2040 ID Yuja & mention to the facilities of Radio Cochiguaz in South America, requesting reports to Ytterby. SIO: 444.

11440U Dark Pampa Radio (via Cochiguaz), 2103+ offering a silk pennant & lot of arabic music. Addr mentioned in Argentina, casilla 5251 Buenos Aires 1000, Arg, lot of ID's as "This is Dark Pampa Radio". SIO: 444

October 26th, 2000 (Sunday)

11440U Station Q Jazzlighthouse (via Cochiguaz), 0013+ jingles as "Q 103", music from Scandinavian countries, ID's in SP+EG at 0052 ID's in Finish, French, Italian, Dutch, German.... SIO: 343. Strong atmospheric noise on this night.

NEWS:

Spain : Poor signals usual. A lot of cracking and the fading increasing after 0820 UTC or so. Happy to catch Brigitte? after years trying, but not enough time to sent a report. Sorry for me. [Mucho suerte por la proxima vez ! - The SRS team]

Denmark: Heard quite a lot of pirates today !

Two e-mail-addresses for you :

Radio Foxfire : radiofoxfire@hotmail.com and

Radio Black Arrow : radioblackarrow@hotmail.com

South America logs

December 2, 2000 (Saturday)

11440U Station Q Jazzlighthouse, 2007+, ID's and swedish & norwegian music, ann transmission via "...facilities of Radio Cochiguaz in South America...", jingles & nice music, Ytterby addr. Same pgm hrd at 2200+, SIO: 453

11440U Dark Pampa Radio (via Cochiguaz), 2101+, "...Esta es la programacion de Dark Pampa Radio para el año 2000....", and at 2142 talks about "Samoa", arabic music, SIO: 454

11440U Radio Cochiguaz, 2300-2307*, ID & s/off w/EI Condor Pasa music. SIO: 454

North America logs

It was a pretty poor showing here in PA this morning. Only 3 stations heard.

6305.008 Alfa Lima Int., 0737, Alfred on with the usual chatter over music. Always the best signal into eastern NA. (Valko 3 Dec.)

6397.72 Unid, 0739, talk by man but unable to copy because of the strong severe UTE here. Very weak. Faded by 0800, so wondering if this might've been a Dutch station. (Valko 3 Dec.)

6266.46 UK Radio, 0745-0810, Pop music at tune in, man anncr with UK accent "There you go, taking you back to 1986 ?? Eva Hunter(??) as well.." and address given shortly thereafter. Into an unrecognizable Pop song with flute prominent. After another announcement at 0749, heard a song by what sounded like a black artist. Only the one fade up peak and never materialized more than that unfortunately. (Valko 3 Dec.)

NEWS:

Not much to report. When it's finally some cx around here, I had to go away early Sunday morning.

- The higher frequencies will be better and better. The latest news are that the sun-spot number will at it's maximum around February next year.
- As you probably have noticed, no voting this year! Maybe there will be one later.
- We carry on one more year - that is a fact. Let's see what the facts are at this time next year.
- If you know that you, as an operator, will be active with special px during X-mas, pse let us know.

R. Laguna and CWR will not use the P.O.Box 73 in Neede. At January 1st 2001 those stations has no address.

Euro-stations, as heard in the U.S. of who-the-hell-is-president?

6260.95 R. Titanic Int., While packing the gear for a short afternoon/early evening micro-DXpedition, I checked for e-mail and got a message RTI would be having a marathon broadcast. While listening later from the remote QTH (about 3.5 miles from town), I did indeed start to get a het around 2100, and bits of instru. music with man announcer at 2145. Unfortunately it never got any better than that. Very disappointing conditions. Was using a 537 foot Beverage aimed at southwestern Europe/northeastern Africa. I checked again back home at 0730 but only hints of audio at best and really impossible. (Valko 9, 10 Dec.)

6209.91 UNID., 0733-0744, Instru. mx sometimes used for voice-over. Into oldie song "Diana" by Paul Anka, followed by another oldie I couldn't recognize. 0738 same instru. voice-over mx as hrd at 0733 along w/uncopiable M annrcr. Signal dropped off amazingly fast after 0740. Also started getting some SSB QRM at that time too. When it was coming in, the signal was fairly decent but seemed to be undermodulated some. Anyone know who this was?? I have a tape recording I'd like to send them which I'm sure they can QSL. (Valko 10 Dec.)

6305.08 Alfa Lima Int., 0745, OC then instru. mx, and finally ID at 0748. Fairly weak but audible. Sure hope conditions improve for the holidays!! (Valko 10 Dec.)

.....
NEWS:

RADIO TOWER from the Netherlands did their first shortwave programme this weekend. The station had only been on FM before. At the moment they use about 200 Watts, but a stronger transmitter is soon to come. The station does not have a mailing address, two telephone numbers were repeated often during the programme: 0031/65/1858551 and 0031/62/2200739.

The "CLCG International" show hosted by Steve Young was supposed to be the final one, after 17 years. Probably this will mean the end to RADIO CLCG as well. The address is CLCG, c/o Postfach 540101, 47151 Duisburg, Germany. Steve is going to continue, however, next year with his own station, RADIO DEVALON INTERNATIONAL. Interestingly, a few minutes after the CLCG had finished, RADIO CONTINENTAL came on the air with the same type of sound and low modulation.

RADIO RTN announced its email address as RTNRadio2000@aol.com. A fax/answering line is available, too. Dial +49 40 3603 549802.

RADIO 510 INTERNATIONAL put out the 1994 Christmas Party of SWR SWITZERLAND on the IRRS free radio relay slot. DJ Stevie mentioned that unlike other old and no longer existing stations he put out again, some QSL-cards are available for that SWR show. Address: Radio 510 International, Postfach 510, 4010 Basel, Switzerland.

In answer to a couple of queries from the SW Pirates Group, Radio Ozone Intern. transmits each Sunday between 08.00-12.00 BST on 7.440 (at present) moving to (hopefully moving to 7.445 when the crystal arrives) at 12.00 BST we move to 7525 normally with the free radio news programme. Close down is normally around 13.30 BST. We hope to do some testing on 5815 starting at 16.30 BST at present we cannot give you a day.

BBMS will be on the air again (relayed by Radio Ozone International) with a look back programme on Sunday 31st December 2000 and on Sunday 7th January 2001, it will be a four hour show featuring the past and present presenters, frequency will be for both days 7445.

Radio Ozone International and BBMS always verify reception reports with QSLs and fact sheets with the occasional photograph when the report is accompanied by the appropriate return postage be it 2 UP TO DATE IRCs, or 2 x 1\$ bills. We also would like to receive from North America/Canada taped reports if you wish tapes to be returned please enclose the appropriate postage.

Radio Geronimo from the UK is looking for a DJ to record programs on tape, in fact anybody thats into Rock (AOR) will do, from Britain or from the continent. The address is 64 Brighton Road, LEICESTER. LE5 OHA. UK.

Geronimo have restarted BC,s on 60mtrs (4805/ 4765 or 4855) twice a month or so. BC,S on 31mtrs give good signals in the UK and the continent (9330 khz) again one or twice monthly.. However there should be something from Geronimo over the Xmas period.

=====

NEWS:

So, one year has soon ended again. Some more new stations than closed so the free radio scene is expanding! We hope that you have liked the way we have reported what have happened on the bands and want to continue helping and serving. Next Monday - no SRSnews, if you haven't guessed that already.

Hopefully will there be an issue 52 issued on Wednesday - so continue sending your logs - no time for celebrations - screw Santa and stick to your radio!

Have a jolly Christmas-season - all the best from the SRS Crew / Jonny & Martin

Seems to be more stations than Pandora trying to put as much out of a birthday-party as possible. Pandora with different px's - but R.Titanic being on all channels around the clock? Address via Ytterby, Sweden.

The Radio Benelux transmission on December 17th was the final one for the year 2000.

Star Club Radio was heard December 17th with the "crazy Christmas show" featuring music by John Lennon who was killed 20 years ago. Further Star Club shows should be aired over the X-mas period.

New station heard testing in Ireland on 7.375 low signal but clear ID's heard as Radio Tara Int. and using the Wupperthal address, PO Box 220342, D-42373 Wuppertal, Germany and e-mail is radiotara@ireland.com They will be testing during the week and will do long broadcasts over the Christmas and New Year period. The various DJ's had nice accents, Australian?

Radio Tower that was mentioned last week has an address: P.O. Box 49, 7475 ZG Markelo, The Netherlands

North American logs (as the Euro-pirates has been heard over there)

RADIO EASTSIDE: 6308.38, 12/24, 0103-0135, 0857-0908+ Heard Black Sabbath "Paranoid" 2X, dance music, country, "Little Drummer Boy," etc. Address announced in phoenetics, mix of English & either Dutch or German. ID per Rainer Brandt. My best ID sounded like "Radio Starlight, East Germany's #1..." I heard that this was relayed by another station, so it's possible that the 0103 show was from the relay transmitter station (or a different program relayed) and not from Eastside. (Yoder,PA)

RADIO COCHIGUAZ?, 11440, 12/24, 0145-0215 SP program, very poor, with watery-sounding signal. I need to go back over the tape of this one. (Yoder,PA)

LASER HOT HITS: 6218.9, 12/24, 0230+ Noted in passing with audio and dance music. Audible many times throughout the Christmas weekend (Yoder,PA)

ALPHA LIMA INTERNATIONAL: 6303.76, 12/24, 0801-0852* Address with phoenetics, song "You Don't Have to Be a Star Baby." Sounded like phone number given out, mentions of QSLs at sign off. (Yoder,PA)

RADIO TORENVALK: 6292.12, 12/24, 0806-0831+ Very poor with light CW QRM, rock & pop music with DJ patter. Tough to pull out anything. ID per Rainer Brandt. Nice to finally hear this one! (Yoder,PA)

Unid: 6210, 12/24, 0817-0915+ Another very poor one, one song sounded like Mariah Carey & a YL ballad. I saw one log of this from Europe as an unid and one as Radio Union. I don't know anything about the station (Yoder,PA)

RADIO NOVA INTERNATIONAL: 6280.12, 12/25, 0732-0800 Very weak with music and OM announcer. ID per Rainer Brandt. (Yoder,PA)

RADIO BORDERHUNTER: 6205.88, 12/25, 0806-0829+ Best Europirate signal of the morning. Music by The Romantics, Band Aid, U2, etc. S5 signal peaks. Clear IDs, nice to finally hear this one! (Yoder,PA)

RADIO ATLANTIS?: 6950.05, 12/25, 0838-0845+ Very faint with music and an OM announcer. I saw logs of Radio Atlantis and UK Radio here. Not sure which it was. (Yoder,PA)

Also noted Laser Hot Hits, Radio Borderhunter, and the 6950.05 station (R.Atlantis or UK Radio?) again (in passing) at 0950 UTC on 12/26

South America logs

December 23, 2000 (Saturday)

11440U Radio Titanic International (via Cochiguaz), 2130+, ID's "This is Radio Titanic International, you tuned to Radio Tiiiiitanic", special 25th anniversary with a very nice selection of music, talks & ID's in EG, GM & SP. Also ID as "free radio, from Europe to the World", SIO: 454.

December 24, 2000 (Sunday)

11440U Radio Titanic International (via Cochiguaz), 0018 ID "En la banda de radiodifusion libre estas escuchando a Radio Titanic Internacional", at 0028 Mambo Nr. 5 mx., lot of annmets with Ostra Porten address. At 0201 s/off with El Condor Pasa, 0203 off. SIO: 453.

NEWS:

Radio East Side has a new Homepage with a lot of interesting informations about the station and also some pictures and QSL images from the station. The address: www.radio-east-side.online.de

They will be testing to Northamerica on the 31th of December at 06.00 UTC on 6240/6245 kHz +/- USB mode and 100 Watt ! More shows via the own TX on 48 m for Europe coming very soon ! Remember also our new mailing address : c/ o SRS Germany , P.O:Box 1136 , 06201 Merseburg , Germany. E mail reports please to : eastside@online.de !

RadioTara Int. can be heard on 6.298 khz. broadcasting from Ireland about 15 W, through a di-pole antenna. Heard in SE Ireland with fair to good signals this morning 23rd. December. (Border Counties) The operator has contacted us and said that transmissions will run over the Christmas Period on a 24 hour basis. SWL: can contact the station at the Wuppertal address or the JRRl address... Post Box 39, Waterford. Ireland. As most of the programmes are pre-recorded a radiotara@ireland.com address has been given out on air. The best address to use is RadioTara@Hotmail.com

RADIO BLACK ARROW is now using an 80 watt Rohde & Schwarz SK10 transmitter (same type as Mike Radio has). So far the signal has improved a lot and on December 24th the station was even logged in Lexington, USA.

TRANSATLANTIC RADIO presented a free radio review 2000, hosted by Johnny McAllan.

RADIO BORDERHUNTER now has an email address - borderhunter@hotmail.com. The old P.O.Box 136 at Baarle-Nassau will close down by the end of this year. All snailmail please to Postbus 44, 2387 Baarle-Hertog, Belgium.

RADIO FLAMINGO announced a new address: Postbus 4427, 3006 AK Rotterdam, The Netherlands

Can anyone help with RADIO FOREVER claiming to broadcast from the North East of the Netherlands ?

TOWER RADIO: Address: PB 49 , NL-7475 ZG , Markelo , NL
e-mail: radiotower@netmail.nl

FOXFIRE, e-mail: radiofoxfire@hotmail.com

MIKE RADIO, address: P.O.Box 23, 8090 AA WEZEP in the Netherlands.

FREE WAVE RADIO, address: P.O.Box 154, 8090 AC WEZEP in the Netherlands.

Happy New Year!

----- end of SRSnews -----
